

PROJECT 10073 RECORD

1. DATE - TIME GROUP 7 Oct 67 08/0336Z	2. LOCATION Omaha, Nebraska
3. SOURCE Civilian	10. CONCLUSION Sighting: Probable AIRCRAFT Case: (INSUFFICIENT CLARITY)
4. NUMBER OF OBJECTS 1	
5. LENGTH OF OBSERVATION 3-4 minutes	11. BRIEF SUMMARY AND ANALYSIS Observer sighted a white object that looked like a cigar with a dome toward the front. The object passed in front of and behind clouds and made no noise. Comments: The local investigating officer felt that there was a question to the reliability of the witness. A dome on a cylindrical body, as reported by the observer could not be seen on the photograph. Three aircraft were in the area at the time of the sighting. In particular a Cessra 411 was obscending from 3000 to 2100 ft arriving at Omaha at 0340Z. This would place the aircraft below the 4000ft broken to overcast condition that existed in the area.
6. TYPE OF OBSERVATION Ground Visual	
7. COURSE E - W	
8. PHOTOS <input checked="" type="checkbox"/> Yes <input checked="" type="checkbox"/> No 2.50RNEO	
9. PHYSICAL EVIDENCE <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	

34. Date you completed this questionnaire:

13
Day

November 1967
Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

~~13~~ In question 28 The drawing is in intervals because it took pictures of the object with a Polaroid Camera and had to go into my house to develop the Pictures. There were 4 pictures but one didn't come out.

Dear Sirs: Please return the Pictures at your the soonest time Possible.

14. Did the object disappear while you were watching it? If so, how?

Very slowly faded away

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

in front of: _____

17. Tell in a few words the following things about the object:

a. Sound

no sound

b. Color

bright orange

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

Very little about 1/5 of the object

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

o + smaller object, a blurry white

Dark orange center gradually becoming
very light yellow.
← another object without very much color

20. Do you think you can estimate the speed of the object?

(Circle One)

☒ Yes

☐ No

IF you answered YES, then what speed would you estimate? *no speed no movement*

21. Do you think you can estimate how far away from you the object was?

(Circle One)

☐ Yes

☒ No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object?
(Circle One):

a. Inside a building

b. In a car

☒ c. Outdoors

d. In an airplane (type) _____

e. At sea

f. Other _____

23. Were you (Circle One)

a. In the business section of a city?

☒ b. In the residential section of a city?

c. In open countryside?

d. Near an airfield?

e. Flying over a city?

f. Flying over open country?

g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

f. Southwest

h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

☐ Yes

☐ No

25. Did you observe the object through any of the following?

a. Eyeglasses

Yes

☒ No

e. Binoculars

Yes

☒ No

b. Sun glasses

Yes

☒ No

f. Telescope

Yes

☒ No

c. Windshield

Yes

☒ No

g. Theodolite

Yes

☒ No

d. Window glass

Yes

☒ No

h. Other _____

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

The sun, but it was not a bright.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

None

29. IF there was MORE THAN ONE object, then how many were there? 3

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

No movement at all

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No

31. Was anyone else with you at the time you saw the object? (Circle One) ☒ Yes ☐ No

31.1 IF you answered YES, did they see the object too? (Circle One) ☒ Yes ☐ No

31.2 Please list their names and addresses:

Mr.

Mr.

Ridgewood N.Y. 11237

32. Please give the following information about yourself:

NAME

Last Name

First Name

Middle Name

ADDRESS

Street

City

Zone

State

TELEPHONE NUMBER

AGE

SEX

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

Day

Month

Year

To my sisters (my own brother) teachers, the city police, and other people

34. Date you completed this questionnaire:

5 December 1961
Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

We were about to come home whenever noticed an object
our first thought was the moon. But ~~they~~ ^{we} later
realized that it was much too large. On our way home
we met ~~some~~ a number of people who also saw it
and one person commented to his husband "I told you I
wasn't crazy, they see it too." When we arrived home
some neighbors told us they also saw it.

SIGHTING OF UNIDENTIFIED PHENOMENA QUESTIONNAIRE

THIS QUESTIONNAIRE HAS BEEN PREPARED SO THAT YOU CAN GIVE THE U.S. AIR FORCE AS MUCH INFORMATION AS POSSIBLE CONCERNING THE UNIDENTIFIED PHENOMENON THAT YOU HAVE OBSERVED. PLEASE TRY TO ANSWER ALL OF THE QUESTIONS. THE INFORMATION YOU GIVE WILL BE USED FOR RESEARCH PURPOSES. YOUR NAME WILL NOT BE USED IN CONNECTION WITH ANY OF YOUR STATEMENTS OR CONCLUSIONS WITHOUT YOUR PERMISSION. RETURN TO AIR FORCE BASE INVESTIGATOR FOR FORWARDING TO FTD (TDEIR), WRIGHT-PATTERSON AFB, OHIO 45433, IAW 80-17. (IF ADDITIONAL SHEETS ARE NEEDED FOR NARRATIVE OR SKETCHES ATTACH SECURELY TO THIS FORM OR ANNOTATE WITH YOUR NAME FOR IDENTIFICATION.)

1. WHEN DID YOU SEE THE PHENOMENON?

DAY 2 MONTH October YEAR 1967

2. WHAT TIME DID YOU FIRST SIGHT THE PHENOMENON?

HOUR 7 MINUTES 15 ☐ A.M. ☒ P.M.

3. WHAT TIME DID YOU LAST SIGHT THE PHENOMENON?

HOUR 7 MINUTES 20 ☐ A.M. ☒ P.M.

4. TIME/ZONE

☒ DAYLIGHT SAVINGS☐ STANDARD☐ EASTERN☐ CENTRAL☐ MOUNTAIN☐ PACIFIC☐ OTHER

5. WHERE WERE YOU WHEN YOU SAW THE PHENOMENON? IF IN CITY, GIVE THE NEAREST STREET ADDRESS AND INDICATE ON A HAND DRAWN MAP WHERE YOU WERE STANDING WITH REFERENCE TO THE ADDRESS. IF IN THE COUNTRY, IDENTIFY THE HIGHWAY YOU WERE ON OR NEAR AND TRY TO FIX A DISTANCE AND DIRECTION FROM SOME RECOGNIZABLE LANDMARK.

The nearest address is not known, but it was just outside Grover Cleveland Park on Starhope St.

6. IMAGINE YOU ARE AT THE POINT SHOWN IN THE SKETCH, PLACE AN "A" ON THE CURVED LINE TO SHOW HOW HIGH THE PHENOMENON WAS ABOVE THE HORIZON, OR SKYLINE, WHEN FIRST SEEN. PLACE A "B" ON THE SAME CURVED LINE TO SHOW HOW HIGH ABOVE THE HORIZON THE PHENOMENON WAS WHEN LAST SEEN.

5A. NOW IMAGINE YOU ARE AT THE CENTER OF THE COMPASS ROSE. PLACE AN "A" ON THE COMPASS TO INDICATE THE DIRECTION TO THE PHENOMENON WHEN FIRST SEEN. PLACE A "B" ON THE COMPASS TO INDICATE THE DIRECTION TO THE PHENOMENON WHEN LAST SEEN.

7. IN THE SKETCH BELOW, PLACE AN "A" AT THE POSITION OF THE PHENOMENON WHEN FIRST SEEN, AND A "B" AT THE POSITION OF THE PHENOMENON WHEN LAST SEEN. CONNECT THE "A" AND "B" WITH A LINE TO APPROXIMATE THE MOVEMENT OF THE PHENOMENON BETWEEN "A" AND "B". THAT IS, SCHEMATICALLY SHOW WHETHER THE MOVEMENT APPEARED TO BE STRAIGHT, CURVED OR ZIG-ZAG. REFER TO SMALLER SKETCH AS AN EXAMPLE OF HOW TO COMPLETE THE LARGER SKETCH.

8. WHERE WERE YOU WHEN YOU SAW THE PHENOMENON? (Check appropriate blocks.)			
<input checked="" type="checkbox"/>	OUTDOORS		IN BUSINESS SECTION OF CITY
	IN BUILDING	<input checked="" type="checkbox"/>	IN RESIDENTIAL SECTION OF CITY
	IN CAR <input type="checkbox"/> AS DRIVER <input type="checkbox"/> AS PASSENGER		IN OPEN COUNTRYSIDE
	IN BOAT		NEAR AIRFIELD
	IN AIRPLANE <input type="checkbox"/> AS PILOT <input type="checkbox"/> AS PASSENGER		FLYING OVER CITY
	OTHER		FLYING OVER OPEN COUNTRY
			OTHER
A. IF YOU WERE IN A VEHICLE, COMPLETE THE FOLLOWING:			
WHAT DIRECTION WERE YOU MOVING?		HOW FAST WERE YOU MOVING?	
<input type="checkbox"/>	NORTH	<input type="checkbox"/>	EAST
<input type="checkbox"/>	SOUTH	<input type="checkbox"/>	WEST
<input type="checkbox"/>	NORTHEAST	<input type="checkbox"/>	SOUTHEAST
<input type="checkbox"/>	NORTHWEST	<input type="checkbox"/>	SOUTHWEST
		<input type="checkbox"/> YES <input type="checkbox"/> NO	
EXPLAIN WHETHER SUCH MOVEMENT EFFECTS YOUR SKETCHES IN ITEMS 5 AND 6.			
DESCRIBE TYPE OF VEHICLE YOU WERE IN AND TYPE OF ROAD, TERRAIN OR BODY OF WATER YOU TRAVERSED DURING THE SIGHTING. STATE WHETHER WINDOWS OR CONVERTIBLE TOP WERE UP OR DOWN.			
HOW MUCH OTHER TRAFFIC WAS THERE?			
DID YOU NOTICE ANY AIRPLANES? <input type="checkbox"/> YES <input type="checkbox"/> NO. IF "YES," DESCRIBE WHEN THEY WERE IN SIGHT RELATIVE TO THE TIME OF SIGHTING THE PHENOMENON AND WHERE THEY WERE IN THE SKY RELATIVE TO THE POSITION OF THE PHENOMENON.			
9. HOW LONG WAS THE PHENOMENON IN SIGHT?			
LENGTH OF TIME		CERTAIN OF TIME	NOT VERY SURE
<i>about 5 minutes</i>	<input checked="" type="checkbox"/>	FAIRLY CERTAIN	JUST A GUESS
HOW WAS TIME DETERMINED?			
<i>Time it takes to walk from porch to airport & back to porch</i>			
WAS THE PHENOMENON IN SIGHT CONTINUOUSLY? <input checked="" type="checkbox"/> YES <input type="checkbox"/> NO. IF "NO," INDICATE WHETHER THIS IS DUE TO YOUR MOVEMENT OR THE BEHAVIOR OF THE PHENOMENON, AND DESCRIBE SUCH MOVEMENT OR BEHAVIOR. INDICATE DISAPPEARANCES ON PREVIOUS SKETCHES.			

10. IF THERE WERE MORE THAN ONE PHENOMENON, HOW MANY WERE THERE? DRAW A PICTURE TO SHOW HOW THEY WERE ARRANGED. DID THIS ARRANGEMENT CHANGE DURING THE SIGHTING?

There were 3 objects.

11. CONDITIONS (Check appropriate blocks.)

A. SKY		B. WEATHER			
	DAY		CUMULUS CLOUDS (<i>Low fluffy</i>)		FOG OR MIST
	TWILIGHT	X	CIRRUS CLOUDS (<i>High fleecy or Herring-bone</i>)		HEAVY RAIN
X	NIGHT				LIGHT RAIN OR DRIZZLE
X	CLEAR		NIMBUS CLOUDS (<i>Rain</i>)		HAIL
	PARTLY CLOUDY		CUMULONIMBUS CLOUDS (<i>Thunderstorms</i>)		SNOW OR SLEET
	COMPLETELY OVERCAST				UNKNOWN
			HAZE OR SMOG	X	NONE OF THE ABOVE

C. IF THE SIGHTING WAS AT TWILIGHT OR NIGHT, WHAT DID YOU NOTICE ABOUT THE STARS AND MOON?

(1) STARS		(2) MOON			
	NONE		BRIGHT MOONLIGHT	X	NO MOONLIGHT
X	A FEW		MOON WITH HALO		UNKNOWN
	MANY	→	MOON HIDDEN BY CLOUDS		
	UNKNOWN		PARTIAL (New or quarter)		

D. IF SIGHTING WAS IN DAYLIGHT, WAS THE SUN VISIBLE? ☐ YES ☐ NO. IF "YES," WHERE WAS THE SUN AS YOU FACED THE PHENOMENON?

<input type="checkbox"/>	IN FRONT OF YOU	<input type="checkbox"/>	TO YOUR RIGHT	<input type="checkbox"/>	OVERHEAD (Near noon)
<input type="checkbox"/>	IN BACK OF YOU	<input type="checkbox"/>	TO YOUR LEFT	<input type="checkbox"/>	UNKNOWN

E. SPECIFY THE MAJOR SOURCE OF ILLUMINATION PRESENT DURING THE SIGHTING, SUCH AS THE SUN, HEADLIGHTS OR STREET LAMP, ETC. FOR TERRESTRIAL ILLUMINATION, SPECIFY DISTANCE TO LIGHT SOURCE.

12. GIVE A BRIEF DESCRIPTION OF THE PHENOMENON, INDICATING WHETHER IT APPEARED DARK OR LIGHT, WHETHER IT REFLECTED LIGHT OR WAS SELF-LUMINOUS AND WHAT COLORS YOU NOTICED. DESCRIBE YOUR IMPRESSION OF WHETHER IT WAS SOLID OR TRANSPARENT, WHETHER EDGES WERE SHARP OR FUZZY. DESCRIBE THE SHAPE OR INDICATE IF IT APPEARED AS A POINT OF LIGHT. INDICATE COMPARISONS WITH OTHER OBSERVED OBJECTS, LIKE STARS, A LIGHT OR OTHER OBJECT IN YOUR FIELD OF VIEW.

There were 3 objects. The largest was about 5x the size of moon. It was bright orange in the center and gradually changed into a very light yellow or white. It resembled the sun in shape but not in brightness. It was very clear in the center but fuzzy on the edges.

13. DID THE PHENOMENON	YES	NO	UNKNOWN
MOVE IN A STRAIGHT LINE?		<input checked="" type="checkbox"/>	
STAND STILL AT ANYTIME?	<input checked="" type="checkbox"/>		
SUDDENLY SPEED UP AND RUN AWAY?		<input checked="" type="checkbox"/>	
BREAK UP IN PARTS AND EXPLODE?		<input checked="" type="checkbox"/>	
CHANGE COLOR?	<input checked="" type="checkbox"/>		
GIVE OFF SMOKE?		<input checked="" type="checkbox"/>	
CHANGE BRIGHTNESS?	<input checked="" type="checkbox"/>		
CHANGE SHAPE?		<input checked="" type="checkbox"/>	
FLASH OR FLICKER?	<input checked="" type="checkbox"/>		
DISAPPEAR AND REAPPEAR?		<input checked="" type="checkbox"/>	
SPIN LIKE A TOP?		<input checked="" type="checkbox"/>	
MAKE A NOISE?		<input checked="" type="checkbox"/>	
FLUTTER OR WOBBLE?		<input checked="" type="checkbox"/>	

14. WHAT DREW YOUR ATTENTION TO THE PHENOMENON?

When leaving park I noticed object and I made a remark to my mother about the size of the moon. I later realized it was not the moon.

A. HOW DID IT FINALLY DISAPPEAR?

It just gradually came apart or cleared away.

B. DID THE PHENOMENON MOVE BEHIND OR IN FRONT OF SOMETHING, LIKE A CLOUD, TREE, OR BUILDING AT ANY TIME?
☐ YES ☒ NO. IF "YES," DESCRIBE.

FOR FTD (TDETR) CSAF (AFRDC); OSAF (SAF-01). SUBJECT: UFO REPORT.

1. THE FOLLOWING REPORT IS SUBMITTED IN ACCORDANCE WITH AFR 80-17.

A. SHAPE: CIGAR WITH DOME ON TOP.

B. SIZE COMPARED TO A KNOWN OBJECT: PEA, OR ABOUT THE SIZE OF
THE GLOW OF A STRET LIGHT TWO BLOCKS AWAY.

C. COLOR: WHITE WITH VERY SLIGHT BLUE TINT.

D. NUMBER: ONE (1).

E. DISCERNIBLE FEATURES OR DETAILS: APPEARANCE OF A CIGAR

UNCLASSIFIED

15. DRAW A PICTURE THAT WILL SHOW THE SHAPE OF THE PHENOMENON. INCLUDE AND LABEL ANY DETAILS THAT MIGHT HAVE APPEARED AS WINGS OR PROTRUSIONS, AND INDICATE EXHAUST OR VAPOR TRAILS. INDICATE BY AN ARROW THE DIRECTION THE PHENOMENON WAS MOVING.

4

 small object

→ bright orange center
→ dark yellow

→ gradually, lighter yellow

2

→ object without bright colors - yellow or off white

16. WHAT WAS THE ANGULAR SIZE? HOLD A MATCH AT ARM'S LENGTH IN FRONT OF A KNOWN OBJECT, SUCH AS A STREET LAMP OR THE MOON. NOTE HOW MUCH OF THE OBJECT IS COVERED BY THE HEAD OF THE MATCH. NOW IF YOU HAD BEEN ABLE TO PERFORM THIS EXPERIMENT AT THE TIME OF THE SIGHTING, ESTIMATE WHAT FRACTION OF THE PHENOMENON WOULD HAVE BEEN COVERED BY THE MATCH HEAD.

Very little about $\frac{1}{2}$

17. DID YOU OBSERVE THE PHENOMENON THROUGH ANY OF THE FOLLOWING? INCLUDE INFORMATION ON MODEL, TYPE, FILTER, LENS PRESCRIPTION OR OTHER APPLICABLE DATA.

EYEGLASSES	CAMERA VIEWER
SUNGLASSES	BINOCULARS
WINDSHIELD	TELESCOPE
SIDE WINDOW OF VEHICLE	THEODOLITE
WINDOWPANE	OTHER

A. DO YOU ORDINARILY WEAR GLASSES? ☐ YES ☒ NO

B. DO YOU USE READING GLASSES? ☒ YES ☐ NO

18. WHAT WAS YOUR IMPRESSION OF THE SPEED OF THE PHENOMENON? GIVE ESTIMATE OF SPEED none

19. WHAT WAS YOUR IMPRESSION OF THE DISTANCE OF THE PHENOMENON? GIVE ESTIMATE OF DISTANCE impossible to estimate

20. IN ORDER THAT WE MAY OBTAIN AS CLEAR A PICTURE AS POSSIBLE OF WHAT YOU SAW, DESCRIBE IN YOUR OWN WORDS A COMMON OBJECT OR OBJECTS WHICH, WHEN PLACED IN THE SKY, SIMILAR TO WHERE YOU NOTED THE PHENOMENON, WOULD BEAR SOME RESEMBLANCE TO WHAT YOU SAW. DESCRIBE SIMILARITIES AND DIFFERENCES BETWEEN THE COMMON OBJECT AND WHAT YOU SAW.

The sun bears some resemblance because of the gradually changing brightness but the sun is too small and the object was seen at night.

21. DID YOU NOTICE ANY ODOR, NOISE, OR HEAT EMANATING FROM THE PHENOMENON OR ANY EFFECT ON YOURSELF, ANIMALS OR MACHINERY IN THE VICINITY? ☐ YES ☒ NO. IF "YES," DESCRIBE.

A. DID THE PHENOMENON DISTURB THE GROUND OR LEAVE ANY PHYSICAL EVIDENCE. ☐ YES ☒ NO. IF "YES," DESCRIBE.

22. HAVE YOU EVER SEEN THIS OR A SIMILAR PHENOMENON BEFORE? ☐ YES ☒ NO. IF "YES," GIVE DATE AND LOCATION.

23. WAS ANYONE WITH YOU AT THE TIME YOU SAW THE PHENOMENON? ☒ YES ☐ NO. IF "YES," DID THEY SEE IT TOO?
☒ YES ☐ NO.

NICAP MASSACHUSETTS INVESTIGATING SUBCOMMITTEE

13 Friend Court
Wenham, Massachusetts

SUBJECT: UFO REPORT - Rt. #2, Cambridge, Mass.- 8:40 PM EDT - 10/3/67
DATE: 13 October 1967
FROM: NICAP MASS SUBCOM
TO: NICAP, Washington, D.C.

cc: CU UFO PROJECT
(PTD (TDETR))

The attached report of a UFO sighting near Fresh Pond, Cambridge is sent to you for your files. It took place on 3 October 1967.

The Wallops Island, Virginia Barium Cloud experiment is not responsible for this incident although this SUBCOM received many calls on that incident which was seen by many in the South at approximately 7:16 PM EDT. I saw the 10/4/67 experiment myself. The witness had also seen this experiment on 10/3/67 earlier in the evening at 7:16 PM EDT. The Barium clouds had dissipated by the time of this sighting. Time, direction and elevation are not compatible. The description of the UFO is strikingly familiar with the 10/2/67 sighting at Ipswich, Massachusetts between 8:30-9:15 PM EDT. This report has also been forwarded.

A check with the "Sky-Lite" advertising plane company's manager revealed that his aircraft was not airborne. There is no Astronomical phenomena which would account for what the witnesses described. As will be seen when reading this report, a check was made by NICAP MASS SUBCOM Investigator Nathan Gold to see if any signs or other things in the area would have given the appearance of the UFO described - the results were negative. Although conventional aircraft are a remote possibility, the object described did not appear to be such. What was seen was somewhat similar to the saturn-type UFO photographed over Trindade Island on January 16, 1958. Its lights were all red.

The witnesses are well-known by Mr. Gold. Mrs. June Annaian is his mother-in-law.

Respectfully submitted,-

Raymond E. Fowler

NOVA 7-9434

REPORT ON UNIDENTIFIED FLYING OBJECT(S)

This form includes questions asked by the United States Air Force and by other Armed Forces' investigating agencies, and additional questions to which answers are needed for full evaluation by NICAP.

After all the information has been fully studied, the conclusion of our Evaluation Panel will be published by NICAP in its regularly issued magazine or in another publication. Please try to answer as many questions as possible. Should you need additional room please use another sheet of paper. Please print or typewrite. Your assistance is of great value and is genuinely appreciated. Thank you.

1. Name **June Annaian** Place of Employment **Anthony's House of Bea**
Address **146 Robbins Road** Occupation **Hairdresser**
Watertown, Mass. Education
Telephone **WA-4-7423** Special Training
Military Service
2. Date of Observation **October 3, 1967** Time **8:40** AM PM Time Zone ED
3. Locality of Observation **Over Route #2, Cambridge (near Fresh Water Pond)**
4. How long did you see the object? Hours Minutes **3** Seconds
5. Please describe weather conditions and the type of sky; i.e., bright daylight, nighttime, dusk, etc. **nighttime**
6. Position of the Sun or Moon in relation to the object and to you. **didn't notice moon**
7. If seen at night, twilight, or dawn, were the stars or moon visible? **yes**
8. Were there more than one object? **No** If so, please tell how many, and draw a sketch of what you saw, indicating direction of movement, if any.
9. Please describe the object(s) in detail. For instance, did it (they) appear solid, or only as a source of light; was it revolving etc? Please use additional sheets of paper, if necessary.
10. Was the object(s) brighter than the background of the sky? **yes**
11. If so, compare the brightness with the Sun, Moon, headlights, etc. **Moon**
12. Did the object(s) — (Please elaborate, if you can give details)
 - Xa. Appear to stand still at any time?
 - b. Suddenly speed up and rush away at any time?
 - c. Break up into parts or explode?
 - d. Give off smoke?
 - e. Leave any visible trail?
 - f. Drop anything?
 - g. Change brightness?
 - h. Change shape?
 - i. Change color?
13. Did the object(s) at any time pass in front of, or behind of, anything? If so, please elaborate giving distance, size, etc, if possible.
14. Was there any wind? **did not** If so, please give direction and speed.
notice
15. Did you observe the object(s) through an optical instrument or other aid, windshield, windowpane, storm window, screening etc? What?
16. Did the object(s) have any sound? **No** What kind? How loud?
17. Please tell if the object(s) was (were) —

18. Was the object —

- ☒ a. Self-luminous?
- b. Dull finish?
- c. Reflecting?
- d. Transparent?

19. Did the object(s) rise or fall while in motion? **No**

20. Tell the apparent size of the object(s) when compared with the following held at arm's length: **size of Moon when overhead**

- | | | |
|------------|------------------|---------------|
| a. Pinhead | d. Nickel | g. Orange |
| b. Pea | e. Half dollar | h. Grapefruit |
| c. Dime | f. Silver dollar | i. Larger |

Or, if easier, give apparent size in inches on a ruler held at arm's length.

21. How did you happen to notice the object(s)? **My friend riding with me noticed it.**

22. Where were you and what were you doing at the time? **Driving on Rte. 16 approaching Rte 2.**

23. How did the object(s) disappear from view? **We drove away from it**

24. Compare the speed of the object(s) with a piston or jet aircraft at the same apparent altitude. **Stationary**

25. Were there any conventional aircraft in the location at the time or immediately afterwards? If so, please elaborate. **No**

26. Please estimate the distance of the object(s). **1/2 mile**

27. What was the elevation of the object(s) in the sky? Please mark on this hemisphere sketch:

28. Names and addresses of other witnesses, if any. **Mary Stepanian, 146 Lockland Ave., Framingham, Massachusetts.**

29. Please draw a map of the locality of the observation showing North; your position; the direction from which the object(s) appeared and disappeared from view; the direction of its course over the area; roads, towns, villages, railroads, and other landmarks within a mile.

MAP ATTACHED

30. Is there an airport, military, governmental, or research installation in the area? **Not to my knowledge**

31. Have you seen other objects of an unidentified nature? If so, please describe these observations, using a separate sheet of paper.

32. Please enclose photographs, motion pictures, news clippings, notes of radio or television programs (include time, station or date, if possible) regarding this or similar observations, or any other background material. We will return the material to you.

33. Were you interrogated by Air Force investigators? By any other federal, state, county, or local officials? If so, please state the name and rank or title of the agent, his office, and details as to where and when the questioning took place. **No**

Were you asked or told not to reveal or discuss the incident? If so, were any reasons or official orders mentioned? Please elaborate carefully. **No**

34. We should like permission to quote your name in connection with this report. This action will encourage other responsible citizens to report similar observations to NICAP. However, if you prefer, we will keep your name confidential. Please note your choice by checking the proper statement below. In any case, please fill in all parts of the form, for our own confidential files. Thank you for your cooperation.

You may use my name. (☒)

Please keep my name confidential. (☐)

We were driving along Rte 16 at Fresh Pond in Cambridge when we looked up, and to the left of us over Rte. 2 we saw something in the sky which caught our attention. I slowed down my speed to get a better and longer look at this object. It appeared to be standing still. We watched it until we drove out of sight of it.

To me it looked like the planet Saturn through a telescope. The center was lighted in a fuzzy amber glow. Around it was a circle of lights. When we first saw it, we saw a center glow with a circle completely around it. As we drove on we got a different angle, one from a side view. The top of the center was luminous and the outer rim now looked like a staggered line of lights.

ARROWS SHOW DIRECTIONS OF
SIGHTINGS.

Mrs. Annaian also saw the Wallops Island rocket display and said this didn't look anything like that. The time is pretty accurate as she was hurrying to get to Sommerville before nine P.M.

After she described the object I showed her pictures of the Trindade Island UFO. She immediately identified it as the same thing she saw.

I checked the area during the daytime to see if there were any signs on high poles or other things that may have given the appearance described when illuminated at night. There was nothing that even remotely fitted the description of the object seen.

I have known Mrs. Annaian for almost three years (she's my mother in law). She is not an excitable person, and I can vouch for her reliability in general.

A handwritten signature in cursive script, reading "Nathan Gold". The signature is written in dark ink and is positioned above the printed name.

Nathan Gold

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object? <u>3</u> <u>Oct</u> <u>1967</u> Day Month Year		2. Time of day: <u>7</u> <u>24</u> Hours Minutes <u>7</u> <u>26</u> (Circle One): A.M. or P.M.	
3. Time Zone: (Circle One): a. Eastern b. Central c. Mountain d. Pacific e. Other _____ (Circle One): a. Daylight Saving b. Standard			
4. Where were you when you saw the object? <u>[REDACTED]</u> <u>NEW YORK</u> <u>BROOK</u> Nearest Postal Address City or Town State or County			
5. How long was object in sight? (Total Duration) _____ Hours Minutes Seconds <u>2</u> <u>35</u> a. <u>Certain</u> b. Fairly certain c. Not very sure d. Just a guess 5.1 How was time in sight determined? <u>By a stop watch</u> 5.2 Was object in sight continuously? Yes <u>✓</u> No _____			
6. What was the condition of the sky? DAY NIGHT a. Bright a. Bright b. Cloudy b. Cloudy			
7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object? (Circle One): a. In front of you d. To your left b. In back of you e. Overhead c. To your right f. Don't remember

20. Do you think you can estimate the speed of the object?

(Circle One) Yes ☒ No

If you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes ☒ No

If you answered YES, then how far away would you say it was? 90 to 100 mi

22. Where were you located when you saw the object?

(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane (type)
- e. At sea
- f. Other ON THE STROOP

23. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other _____

24. If you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes ☐ No ☐

25. Did you observe the object through any of the following?

- | | | | |
|-----------------|---|----------------|--|
| a. Eyeglasses | Yes <input type="radio"/> No <input type="radio"/> | e. Binoculars | Yes <input type="radio"/> No <input type="radio"/> |
| b. Sun glasses | Yes <input checked="" type="radio"/> No <input type="radio"/> | f. Telescope | Yes <input type="radio"/> No <input type="radio"/> |
| c. Windshield | Yes <input type="radio"/> No <input type="radio"/> | g. Theodolite | Yes <input type="radio"/> No <input type="radio"/> |
| d. Window glass | Yes <input type="radio"/> No <input type="radio"/> | h. Other _____ | |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Both objects were like a antenna
plate

Official U.S. Air Force

Page 3

14. Did the object disappear while you were watching it? If so, how?

YES. It faded
AWAY VERY ~~slowly~~ stowley

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't know.

If you answered YES, then tell what

it moved behind:

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't know.

If you answered YES, then tell what

in front of:

6 or 7 stars

17. Tell in a few words the following things about the object:

a. Sound

NOISE

b. Color

RED BLUE ORANGE PINK
white

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

1/1000

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

Page 2

E. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- ☒ ~~a. None~~
☒ b. A few
☐ c. Many
☐ d. Don't remember

8.2 MOON (Circle One):

- ☐ a. Bright moonlight
☒ b. Dull moonlight
☐ c. No moonlight—pitch dark
☐ d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- ☒ a. Clear sky
☐ b. Hazy
☐ c. Scattered clouds
☐ d. Thick or heavy clouds

WEATHER (Circle One):

- ☒ a. Dry
☐ b. Fog, mist, or light rain
☐ c. Moderate or heavy rain
☐ d. Snow
☐ e. Don't remember

10. The object appeared: (Circle One):

- ☐ a. Solid
☐ b. Transparent
☐ c. Vapor
☒ d. As a light
☐ e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- ☒ a. Brighter
☐ b. Dimmer
☐ c. About the same
☐ d. Don't know

11.1 Compare brightness to some common object:

IT WAS 4 COLORS AND WAS
 BRIGHTER THAN AT LEAST EIGHT SPOT LIGHTS

12. The edges of the object were:

- (Circle One): ☐ a. Fuzzy or blurred
☐ b. Like a bright star
☒ c. Sharply outlined
☐ d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

- | | | | |
|---|-----|----|------------|
| a. Appear to stand still at any time? | Yes | No | Don't know |
| b. Suddenly speed up and rush away at any time? | Yes | No | Don't know |
| c. Break up into parts or explode? | Yes | No | Don't know |
| d. Give off smoke? | Yes | No | Don't know |
| e. Change brightness? | Yes | No | Don't know |
| f. Change shape? | Yes | No | Don't know |
| g. Flash or flicker? | Yes | No | Don't know |
| h. Disappear and reappear? | Yes | No | Don't know |

20. Do you think you can estimate the speed of the object?

(Circle One) Yes No

If you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

If you answered YES, then how far away would you say it was? a mile and 1/2

22. Where were you located when you saw the object?

(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane (type)
- e. At sea
- f. Other _____

23. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other residential suburb (small community)

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- a. North
- b. Northeast
- c. East
- d. Southeast
- e. South
- f. Southwest
- g. West
- h. Northwest

24.2 How fast were you moving? 20 miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

- | | | | | | |
|-----------------|-----|----|----------------|-----|----|
| a. Eyeglasses | Yes | No | e. Binoculars | Yes | No |

October 3, 1967

Dear Mayor DiCintilla

Tonight I saw three unidentified objects in the sky, + as you can imagine, I am quite concerned.

I have read extensive material on the subject of U.F.O.'s prior to my observation + I, myself, could not find a reasonable explanation. I am positive it is not marsh gas, or lights.

I do not believe in little green men with ray guns from Mars. I do believe there is intelligent life organisms living elsewhere in the universe, most probably on Venus as the conditions are positive.

I hope you can give me an answer. I am sorry to write but I know of no other Air Force Base. Thank you [redacted]

then with glasses

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

a paramicum

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass when you last saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? 3
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

34. Date you completed this questionnaire:

3 Oct '67
Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

I stood looking for my cat when I saw them. I ran & called my parents to see & got my glasses. I was excited & I ran to the next door neighbors & 3 of them saw it also. Mr. Luchs said it was lights but we soon put that theory down due to the fact that the one stayed bright & very, very slowly moved, not like a searchlight. Within a 15 min time (approx. 7:25 to 7:30) during the first 7 or so minutes I continually watched it & in the remaining minutes I ran in & out of the house at intervals of approximately 3 minutes. The last time I ran out the ~~the~~ big ones had faded completely & the biggest one was just a very light page. The small bright one had moved out of view.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

14 OCT 67
Day Month Year

2. Time of day:

8 55
Hours Minutes

DURATION ABOUT 8 MINUTES
(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

[REDACTED] MIDDLETOWN OHIO 45142
Nearest Postal Address City or Town State or County

5. How long was object in sight? (Total Duration)

10
Hours Minutes Seconds

a. Certain
b. Fairly certain

c. Not very sure
d. Just a guess

5.1 How was time in sight determined? By a watch

5.2 Was object in sight continuously? Yes X No _____

6. What was the condition of the sky?

DAY
a. Bright
b. Cloudy

NIGHT
a. Bright
b. Cloudy

7. If you saw the object during DAYLIGHT, where was the SUN located as you looked at the object? ✓

(Circle One): a. In front of you
b. In back of you
c. To your right

d. To your left
e. Overhead
f. Don't remember

FORCE UFO FORM

Page 2

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy ?? IN EAST
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

Compare to the North Star

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

- | | | | |
|---|------------|-----------|------------|
| a. Appear to stand still at any time? | <u>Yes</u> | No | Don't know |
| b. Suddenly speed up and rush away at any time? | <u>Yes</u> | No | Don't know |
| c. Break up into parts or explode? | Yes | <u>No</u> | Don't know |
| d. Give off smoke? | Yes | <u>No</u> | Don't know |
| e. Change brightness? | Yes | <u>No</u> | Don't know |
| f. Change shape? | Yes | <u>No</u> | Don't know |
| g. Flash or flicker? | Yes | <u>No</u> | Don't know |
| h. Disappear and reappear? | Yes | <u>No</u> | Don't know |

Official U.S. Air Force UFO form

Page 3

14. Did the object disappear while you were watching it? If so, how? yes, it faded out.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't know.

If you answered YES, then tell what

it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't know.

If you answered YES, then tell what

in front of: _____

17. Tell in a few words the following things about the object:

a. Sound noneb. Color same as a star

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head? Allof it.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

 → EAST & SOUTH EAST
THIS AT ABOUT 75° ONLY
FOR A INSTANT

20. Do you think you can identify the object?

(Circle One)

If you answered YES, tell what:

21. Do you think you can identify the object?

(Circle One)

If you answered YES, tell what:

22. Where were you located?

(Circle One)

FIELD ON

a. Inside a building

b. In a car

☒ c. Outdoors

d. In an airplane (type)

e. Aired

f. Other 27400

23. If you were MOVING it:

23.1 What direction were you moving?

a. North

b. Northeast

23.2 How fast were you moving?

23.3 Did you stop at any time?

(Circle One)

24. Did you observe the object through:

a. Eyeglasses

b. Sunglasses

c. Windshield

d. Window glass

25. In order that you can give a description of the object which, when placed in the sky, will show its position relative to the stars, please describe the object's position in the sky.

A BRIGHT

UFO form continued

Page 4

20. Do you think you can estimate the speed of the object?

(Circle One)

Yes

No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

No

AS FAR UP AS THE BRIGHTEST
STAR

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object?

(Circle One):

FIRST ON THE PATIO

a. Inside a building

b. In a car

c. Outdoors

d. In an airplane (type)

e. At sea

f. Other STANDING IN YARD

23. Were you (Circle One)

a. In the business section of a city?

b. In the residential section of a city?

c. In open countryside?

d. Near an airfield?

e. Flying over a city?

f. Flying over open country?

g. Other AWAY FROM TOWN

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

NE

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

f. Southwest

h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

No

25. Did you observe the object through any of the following?

a. Eyeglasses

Yes

No

e. Binoculars

Yes

No

b. Sun glasses

Yes

No

f. Telescope

Yes

WORLD REPORT On the Sonic Boom Merry-Go-Round

By United Press International

Theodore O. Elsner of Addison said today he got on a "merry-go-round" last July when a sonic boom created by a jet plane broke his mother's vase.

After learning from newspaper stories that all claims from sonic boom damage in Illinois must be sent to Chanute Air Force Base at Rantoul, Elsner notified the Air Force.

Officials at Chanute simply sent Elsner routine forms to fill out, "required by regulation," according to Col. John W. Miller of the Office of Information at the base.

Elsner said he received 18 pages of government forms. Miller said the Air Force sent only 5 forms, each of which had one, two or three copies, along with a letter of instructions on how to fill out the forms.

IN THE official letter, the Air Force said it would reimburse Elsner for the vase -- \$595 -- if it found a sonic boom caused the damage.

Elsner refused to fill out the forms: "He thought it was ridiculous to fill out 18 forms," his mother said, "And

so do I."

Rep. John N. Erlenborn, (R - Wheaton), got on what he called "one of those government merry-go-rounds which come straight out of never-never land" later that month when Elsner complained in a letter to his congressman.

Sees UFO... With Propeller!

The sighting of an unidentified flying object has been reported in Mount Prospect by a Rolling Meadows youth.

Fred Thoma, 19, of 2313 Eastman in Rolling Meadows, told police officer William Burtis that he saw a strange craft hovering over a field late Saturday night.

Thoma said he first noticed it as he was driving west with his girlfriend on Central Rd. near Busse Rd.

Thoma described the object as having a saucer-shaped body topped by a spinning propeller. He said that there was a white light between the propeller and the craft's body.

THOMA SAID he took his

girl home, returned to the field in time to see the craft, "as big as a one-car garage," slowly descending.

Thoma left the scene and

hailed Burtis, who was cruising nearby in a squad car.

When Burtis arrived at the field he found no trace of the mysterious object.

MEMORANDUM

10 Oct 67

Hector

Just returned from a quick trip to England--I see that the same old thing is still going on. I even read an article in a Sunday magazine in London--"What is The Truth About UFO'S--etc"

I've stopped sending you everything I find on the subject 'cause it's so redundant. Seems, however, that we should share the "double-header" that appeared in the paper that's left on my door at home each day.

Hi to all.....Cordially

RECEIVED
OFFICE OF THE SECRETARY
DEPARTMENT OF THE AIR FORCE

April 14, 1969

To Whom it May Concerns

On the advice of an educated gentleman from Philadelphia I am sending a copy of a U.F.O. report to your organization. Also enclosed is a topographical map of the area.

Please be advised that the length of time that the object was in sight is estimated only. The report states approximately 60 seconds but it could have been only 30 seconds.

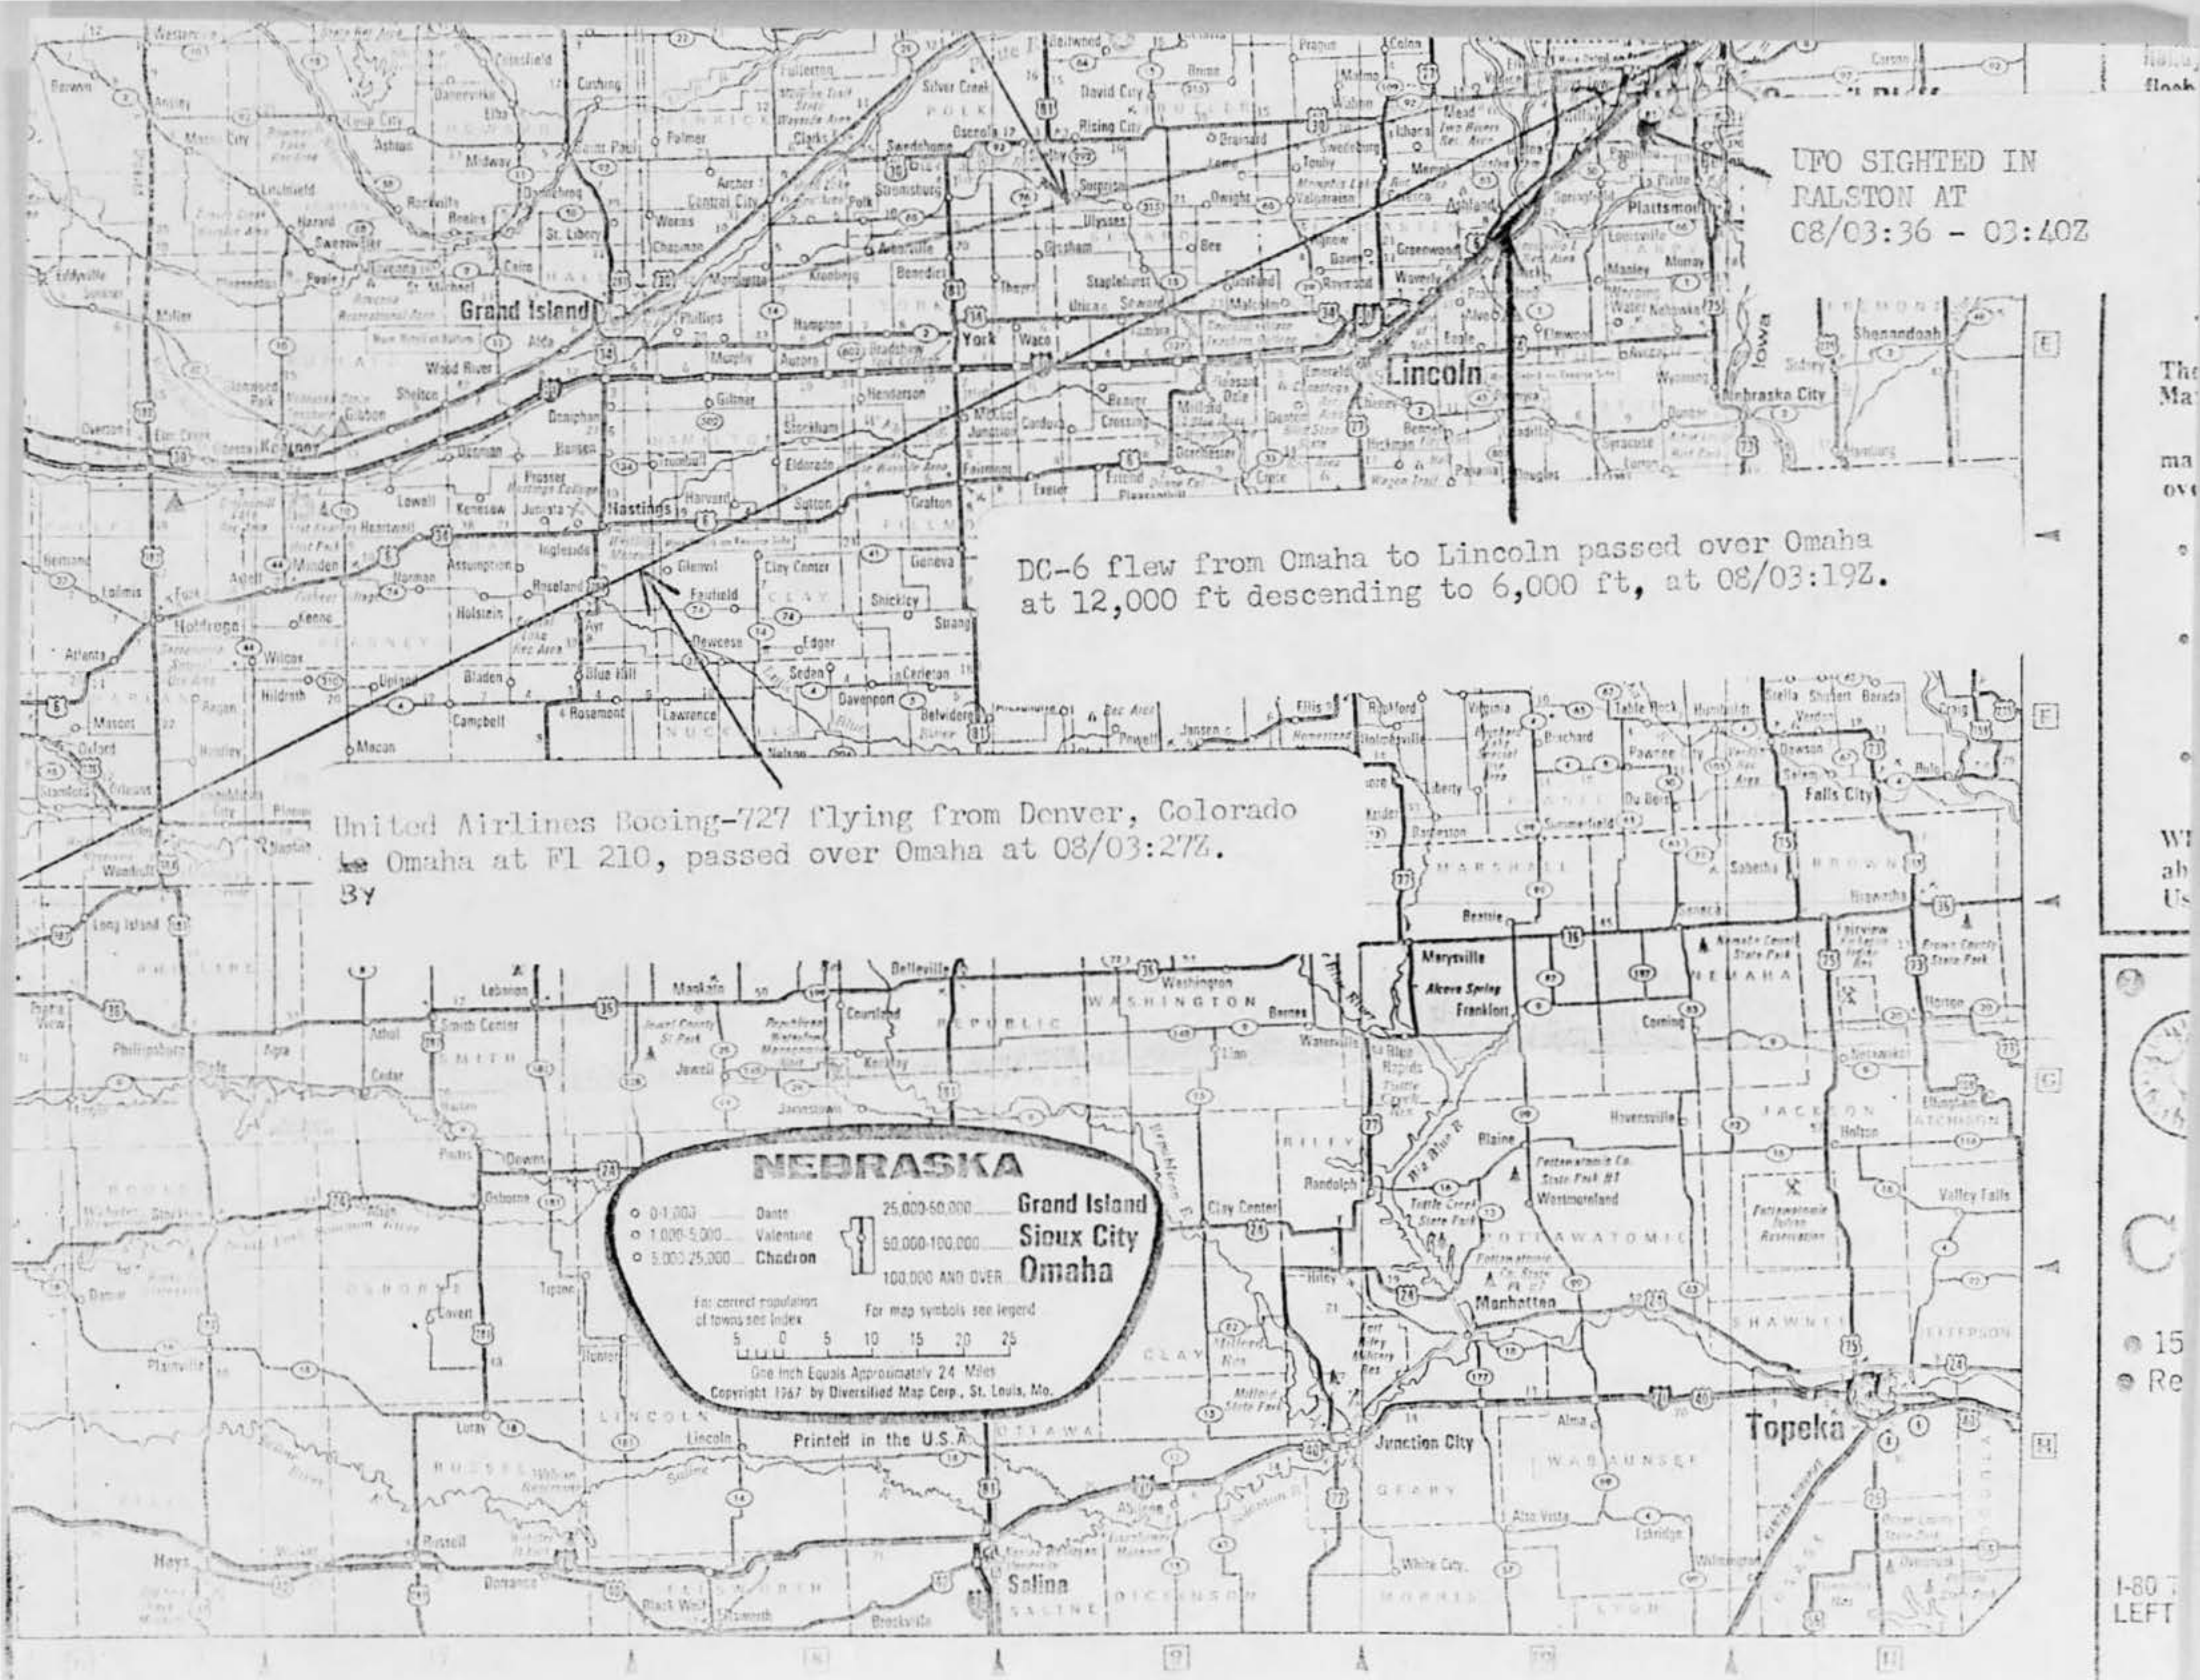

The weather was clear and the stars were out.

As to size of the object, by holding

(Copy of Original)

U. F. O. Sighting

Date: October 7, 1967

Time: 7:30 P. M.

Location: Inlet Creek (White Swan Lake area, East of Canal Flats, B.C.)

Description: Disc shape with dome. Lower section glowed firey red similiar to a star. Dome pulsatd with a bright blue light.

Path of Flight: West to East on direct course.

Altitude: Impossible to estimate except high above mountains.

Speed: From skyline to skyline in approximately 1 minute.

Flight Description: U. F. O. appeared on the skyline above the mountains on the West moving rapidly East on a straight line across the valley. About 10 seconds after sighting, the object expelled a fire ball which appeared to be the same size as the object. The fire ball hovered in mid air and two seperate small particles were seen to glow and then burn out. Directly over the centre of the valley, the blue pulsating dome became visible and remained so until the object disappeared on the skyline to the East. The above information and sketch is accurate and correct to the best of our ability.

Dear [REDACTED]:

This will reply to your letter of October 8, regarding your two sightings of UFOs.

The first happened so long ago, and so many details necessary to positive identification of a sighting are missing, that identification would be virtually impossible at this point in time. Perhaps the inclosed Project Blue Book report will help you to identify it.

The second sighting was more recent; however, necessary details are omitted. Therefore, if you would care to complete the attached questionnaire, and forward it in the postage-free envelope we are inclosing, to the address given on the envelope, we shall try to determine what you actually observed.

In the future, should you sight another UFO, please contact the UFO investigator at your nearest Air Force base immediately. By so doing, you will have a much greater chance of having your sighting identified.

Sincerely,

DAVID L. STILES
Major, USAF
Acting Chief, Civil Branch
Community Relations Division

Oct. 8, 1967

To whom it may concern,

My name is [REDACTED]

I would like to report two sightings of U.F.O.'s that I and a number of friends have seen.

The first one, seen by my cousin, [REDACTED] and I, happened about a year ago in December. I don't remember the date but the time was around 9:30 P.M. to 10:30 P.M. It was on Lake Wallenpaupack in Pennsylvania. That's where I live - my cousin and I were cleaning racks of the ice that little birds had thrown on. The ice was thin, about two inches, so we crawled on our stomachs. I heard a strange sound. I shined my flashlight across the ice and saw a object looked like two reflectors over each other. I called my cousin's attention to it. We put our lights out, but the thing was still there. I heard the noise again. It was clear and distinct. It was a thumping sound. The object began to move closer. When we first saw it, it was about 400 yd away. When it began moving the lights changed position and were now side by side. It started moving toward us very fast. We got off the ice and started to yell, trying to get an answer, but no answer was heard. The noise was getting faster the faster the object moved. We ran for the car. When we started to go across a bridge, where that cross the lake,

The object was in a dim light from a moon light. It appeared to be flat, oval, and a dome in the center, that's where the lights were, on the dome. We then took off in the cars that was the last we saw of it.

The second sighting happened only a few days ago, on October 3. A friend named Bill, and I were fishing about 7:30 P.M. It was dark. We heard a fisherman yell from across the stream he see. can see something in the sky. ~~and~~ and we row out to see a white mass materialize in the sky. It was bright, slightly oval, and about 20 feet in diameter. It appeared about as big as a weather balloon. It was revolving, like on its axis. Then another materialized over it. Then the second one disappeared and the first one shot two small objects in the direction where the second one was. There was a cloud formation nearby to the objects left. There was one long cloud in a vertical position. A beam of white light shot out of the cloud toward the object and remained in sight for 10 min. We watched as a jet moved in very fast and slowed to circle around the object when the object became very bright. The jet then took off. I know that a rocket was sent up that night, but they were in the south. The objects were in the East. The rocket should have changed its color to a blue or orange. Two friends saw the rocket and

● said it had changed colors. About ten people fishermen witnessed the object including Bill and me.

I am a strong believer in flying saucers. I have read many books.

If there is no charge would you please send me information on the "Incident at Exeter" and, or information on other sightings.

Thank you for reading this letter. Would you please answer this letter. Tell me what the charge would be, if any, for a copy of "Project Blue Book" I have read people have received copies.

Thank you,

~~Bill and me~~
~~Bill and me~~

OFFUTT AIR FORCE BASE, NEBRASKA, 68113

REPLY TO
ATTN OF: BCXI(Capt. Cunningham/402-294-4050)

1 November 1967

SUBJECT: UFO Observation of 8 Oct 67

TO: TDET/UFO
Hq, Foreign Technology Div (AFSC)
Wright-Patterson AFB, Ohio 45433

1. Reference to your letter of 17 October 1967 in regard to the UFO report, I am enclosing the photos of the UFO so that photo analysis can be performed.
2. I stated in the initial message that a T-29 landed at 0442Z approximately one hour after the sighting. I mentioned it since it would be possible for the T-29 to have been near the area if he had been flying approaches prior to the landing. The active runway was 30 and an instrument missed approach would place the aircraft near the location of the sighting. I have no details on the flight of the T-29 as yet since it was not an Offutt aircraft. The aircraft was from the 4900 ABW, Kirtland AFB and was piloted by Captain Dale N. Amend, FR54039 and the copilot was Captain James A. Malek, FV3004637. I have sent a letter to Captain Amend to inquire about his flight in order to determine if he could have been in the area. I will forward the information concerning the T-29 when I receive it.
3. Mr. Griffin of the FAA reports that only three aircraft flew near this area at any time close to the time of the sighting. A Cessna 411 flew from Grand Island to Omaha descending from 6,000 feet to 2,100 feet arriving at Omaha at 0340Z. This would place the aircraft below the 4,000 ft broken to overcast condition that existed in the area of the sighting time also.
4. There were two other flights near that area. A DC-6 passed over Omaha at 08/0319Z at 12,000 feet descending to 6,000 feet going to Lincoln on a flight path approximately 3 miles north of the area. A United Airlines Boeing 727 flying from Denver, Colorado at Fl 210 passed over Omaha at 08/0327 on a path approximately 10 miles north.
5. The DC-6 and the Boeing 727 appear to both have passed the area too early and at too high an altitude to be a factor, but I mention them in case this is of any importance to you. I have enclosed a map showing the flight paths.
6. If I can be of any other assistance please let me know.

Roy R. Cunningham
ROY R. CUNNINGHAM, Capt., USAF

DATE OF REPORT 26 January

SUBJECT UNIDENTIFIED FLYING OBJECT

LOCATION Omaha, Nebraska

DATE 7 October 1967

PHOTOGRAPHY

AF _____ IR _____ QUALITY _____

P NRS _____

Three 2½ inch by 3½ inch Polaroid Black and White Prints

1. PURPOSE: This report is in reply to Work Order 68-4 submitted by Major H. Quintanilla, requesting that photo analysis be accomplished on three Polaroid prints to determine the nature of the image appearing on these prints.

2. ANALYSIS: Examination of the prints produced the following results: An image is present on each of the photographs. The images appear as a white streak on a black background. The lack of definitive detail precluded a precise determination as to image identity. A dome on a cylindrical body, as reported by the observer, could not be seen on the photograph.

1. This replies to your request for information on your unidentified flying object (UFO) observation and photograph. Your photograph is presently being forwarded to photo experts at Wright-Patterson AFB for analysis. It is quite likely that the analysis will take several months, since our photo experts must also devote their time to other Air Force projects. Upon completion of analysis we will return your print, however, in the meantime we are forwarding you a copy of your photograph.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

Tues. Oct. 1967
Day Month Year

2. Time of day: 8 : 15
Hours Minutes

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

[REDACTED]
Nearest Postal Address

City or Town

N.Y. Queens
State or County

5. How long was object in sight? (Total Duration)

10-15
Hours Minutes Seconds

a. Certain
b. Fairly certain

c. Not very sure
d. Just a guess

5.1 How was time in sight determined? Clock

5.2 Was object in sight continuously?

Yes _____ No ✓

6. What was the condition of the sky?

DAY
a. Bright
b. Cloudy

NIGHT
a. Bright
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right

d. To your left
e. Overhead
f. Don't remember

8. IF you saw the object

8.1 STARS: Circle C

a. None
b. A few
c. Many
d. Don't remember

9. What were the weather conditions?

CLOUDS: Circle One

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

10. The object appeared

a. Solid
b. Transparent
c. Vapor

11. It appeared as a

a. Brighter
b. Dimmer

11.1 Compared to

ash

12. The edges of the object

(Circle One): a. _____
b. _____
c. _____
d. _____

13. Did the object:

a. Appear to vibrate
b. Suddenly speed up
c. Break up into pieces
d. Give off smoke
e. Change brightness
f. Change shape
g. Flash or flicker
h. Disappear and reappear

R FORCE UFO FORM

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight—pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

Cool

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

as bright as the moon or brighter.

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

e. Other *there were lights around the edges flashing.*

13. Did the object:

(Circle One for each question)

- a. Appear to stand still at any time?
- b. Suddenly speed up and rush away at any time?
- c. Break up into parts or explode?
- d. Give off smoke?
- e. Change brightness?
- f. Change shape?
- g. Flash or flicker?
- h. Disappear and reappear?

Page 4

20. Do you think you can estimate the speed of the object?

(Circle One)

Yes

No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

No

IF you answered YES, then how far away would you say it was? about 1 or 2 city blocks

22. Where were you located when you saw the object?

(Circle One):

a. Inside a building

b. In a car

c. Outdoors

d. In an airplane (type)

e. At sea

f. Other _____

23. Were you (Circle One)

a. In the business section of a city?

b. In the residential section of a city?

c. In open countryside?

d. Near an airfield?

e. Flying over a city?

f. Flying over open country?

g. Other we were in the Park

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

f. Southwest

h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

No

25. Did you observe the object through any of the following? no

a. Eyeglasses

Yes

No

e. Binoculars

Yes

No

b. Sun glasses

Yes

No

f. Telescope

Yes

No

c. Windshield

Yes

No

g. Theodolite

Yes

No

d. Window glass

Yes

No

h. Other _____

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

no hardly anything even though there a lot of planes going to land at the airport. I know a plane when I see one.

Official U.S. Air Force

Page 3

14. Did the object disappear while you were watching it? If so, how?

at one time it stop between the trees and then disappear behind the trees and sped off.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't know.

If you answered YES, then tell what

it moved behind:

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't know.

If you answered YES, then tell what

in front of:

17. Tell in a few words the following things about the object:

a. Sound

my friend heard something like a whistling sound

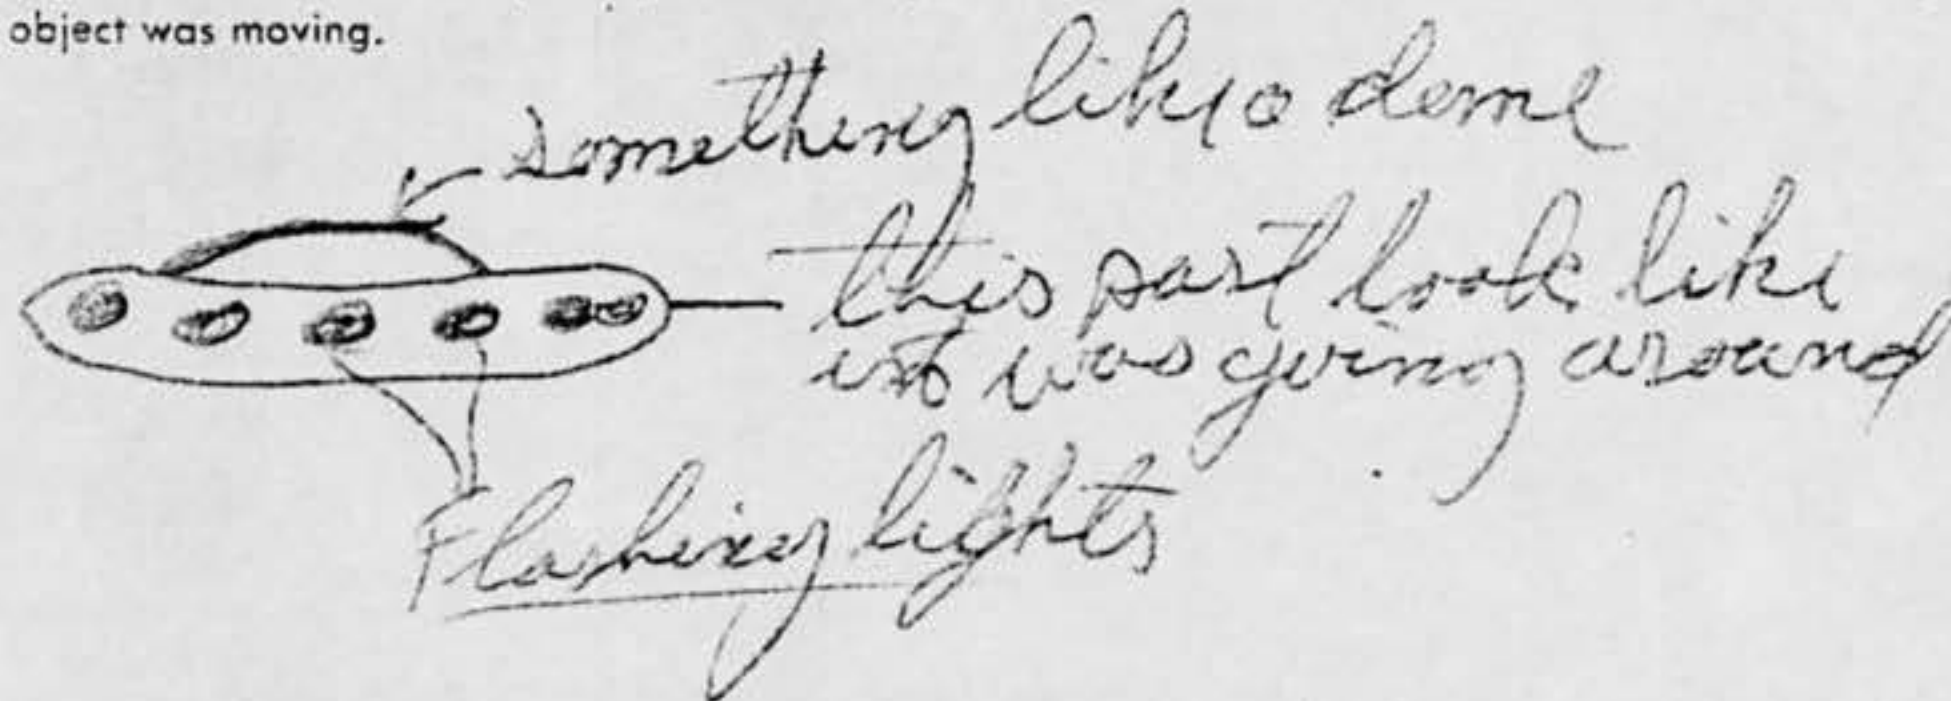

b. Color

bright white

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

none of it would have hardly covered it.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

materializing
no Pack,

traveling

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

no but my friend saw one he says exactly like this over the bay when she was on vacation out by hampton bay N.Y. this summer, 1967

31. Was anyone else with you at the time you saw the object? (Circle One) ☒ Yes ☐ No

31.1 IF you answered YES, did they see the object too? (Circle One) ☒ Yes ☐ No

31.2 Please list their names and addresses:

Some other people saw it but I don't know where they live.
[Redacted names and addresses]

32. Please give the following information about yourself:

NAME [Redacted] Last Name [Redacted] First Name [Redacted] Middle Name [Redacted]

ADDRESS [Redacted] Street [Redacted] City Queens Village Zone 11429 State N.Y.

TELEPHONE NUMBER NONE AGE 16 SEX MALE

(SP6 1045) (LA 4582)

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

Day Month Year

we didn't because we thought the cops would not do anything, anything.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass when you last saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

*to be it look like it was
looking far a/lantern
Place in Alley Pond Park,*

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

Official U.S. Air Force

Page 7

34. Date you completed this questionnaire:

Web. Oct. 1967
Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

My friend and I chose it for about 1 mile
as near to alley Pond Park, where it stop a
couple of times. It kept said to me it look
like it was looking for a landing place. There
is only one landing place in the woods.

SIGHTING OF UNIDENTIFIED PHENOMENA QUESTIONNAIRE

BUDGET BUREAU APPROVAL
NUMBER 21-R258

THIS QUESTIONNAIRE HAS BEEN PREPARED SO THAT YOU CAN GIVE THE U.S. AIR FORCE AS MUCH INFORMATION AS POSSIBLE CONCERNING THE UNIDENTIFIED PHENOMENON THAT YOU HAVE OBSERVED. PLEASE TRY TO ANSWER ALL OF THE QUESTIONS. THE INFORMATION YOU GIVE WILL BE USED FOR RESEARCH PURPOSES. YOUR NAME WILL NOT BE USED IN CONNECTION WITH ANY OF YOUR STATEMENTS OR CONCLUSIONS WITHOUT YOUR PERMISSION. RETURN TO AIR FORCE BASE INVESTIGATOR FOR FORWARDING TO FTD (TDETR), WRIGHT-PATTERSON AFB, OHIO 45433, IAW AFR 80-17. (IF ADDITIONAL SHEETS ARE NEEDED FOR NARRATIVE OR SKETCHES ATTACH SECURELY TO THIS FORM OR ANNOTATE WITH YOUR NAME FOR IDENTIFICATION)

1. WHEN DID YOU SEE THE PHENOMENON?

DAY _____ MONTH Oct YEAR 1967

2. WHAT TIME DID YOU FIRST SIGHT THE PHENOMENON?

HOUR 6:30 MINUTES seconds ☐ A.M. ☒ P.M.

3. WHAT TIME DID YOU LAST SIGHT THE PHENOMENON?

HOUR 6:30 MINUTES seconds ☐ A.M. ☒ P.M.

4. TIME ZONE

☐ DAYLIGHT SAVINGS

☐ STANDARD

☐ EASTERN

☐ CENTRAL

☐ MOUNTAIN

☐ PACIFIC

☐ OTHER

5. WHERE WERE YOU WHEN YOU SAW THE PHENOMENON? IF IN CITY, GIVE THE NEAREST STREET ADDRESS AND INDICATE ON A HAND DRAWN MAP WHERE YOU WERE STANDING WITH REFERENCE TO THE ADDRESS. IF IN THE COUNTRY, IDENTIFY THE HIGHWAY YOU WERE ON OR NEAR AND TRY TO FIX A DISTANCE AND DIRECTION FROM SOME RECOGNIZABLE LANDMARK.

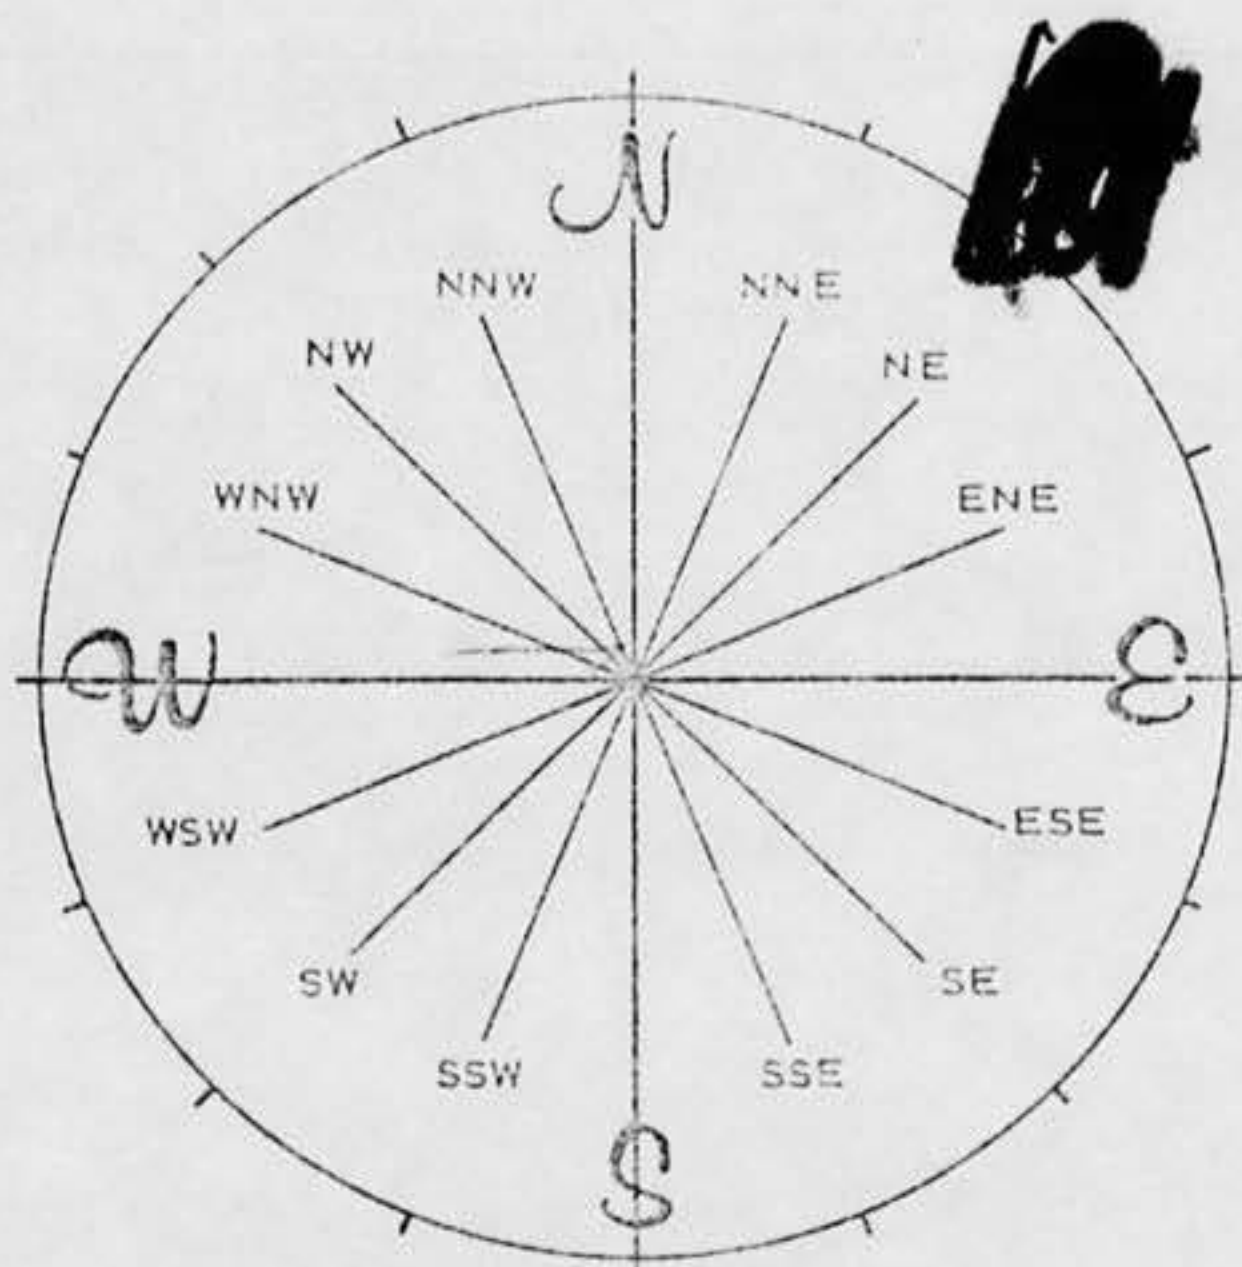

*country Mail Route when seen, when
hurt with the different materialization.
from it I was in 7 states & Canada)
at least 6 different materialization from it
at the speed of lightning, WITH EQUIPMENT TO USE
A SOUND WITH TALK FROM IT IN MY EARS
materializations = A NEW CHEMICAL AS RADAR OR ETC.*

6. IMAGINE YOU ARE AT THE POINT SHOWN IN THE SKETCH. PLACE AN "A" ON THE CURVED LINE TO SHOW HOW HIGH THE PHENOMENON WAS ABOVE THE HORIZON, OR SKYLINE, WHEN FIRST SEEN. PLACE A "B" ON THE SAME CURVED LINE TO SHOW HOW HIGH ABOVE THE HORIZON THE PHENOMENON WAS WHEN LAST SEEN.

CREATION

6A. NOW IMAGINE YOU ARE AT THE CENTER OF THE COMPASS ROSE. PLACE AN "A" ON THE COMPASS TO INDICATE THE DIRECTION TO THE PHENOMENON WHEN FIRST SEEN. PLACE A "B" ON THE COMPASS TO INDICATE THE DIRECTION TO THE PHENOMENON WHEN LAST SEEN.

7. IN THE SKETCH BELOW, PLACE AN "A" AT THE POSITION OF THE PHENOMENON WHEN FIRST SEEN, AND A "B" AT THE POSITION OF THE PHENOMENON WHEN LAST SEEN. CONNECT THE "A" AND "B" WITH A LINE TO APPROXIMATE THE MOVEMENT OF THE PHENOMENON BETWEEN "A" AND "B". THAT IS, SCHEMATICALLY SHOW WHETHER THE MOVEMENT APPEARED TO BE STRAIGHT, CURVED OR ZIG-ZAG. REFER TO SMALLER SKETCH AS AN EXAMPLE OF HOW TO COMPLETE THE LARGER SKETCH.

B. WHERE WERE YOU WHEN YOU SAW THE PHENOMENON? (Check appropriate blocks.)			
OUTDOORS		IN BUSINESS SECTION OF CITY	
IN BUILDING		IN RESIDENTIAL SECTION OF CITY	
IN CAR	<input type="checkbox"/> AS DRIVER <input type="checkbox"/> AS PASSENGER	IN OPEN COUNTRYSIDE	
IN BOAT		NEAR AIRFIELD	
IN AIRPLANE	<input type="checkbox"/> AS PILOT <input type="checkbox"/> AS PASSENGER	FLYING OVER CITY

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

7 October 1967
Day Month Year

2. Time of day:

10 36
Hour Minutes

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

(at the time)

4. Where were you when you saw the object?

~~XXXXXXXXXX~~ Drive Omaha Nebraska
Nearest Postal Address City or Town State or County

5. How long was object in sight? (Total Duration)

4
Hours Minutes Seconds

a. Certain
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined?

at the clock when I got the camera

5.2 Was object in sight continuously?

Yes _____ No X

6. What was the condition of the sky?

DAY
a. Bright
b. Cloudy

NIGHT
a. Bright
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right

d. To your left
e. Overhead
f. Don't remember

13	DID THE PHENOMENON	YES	NO	UNKNOWN
	MOVE IN A STRAIGHT LINE?			
	STAND STILL AT ANYTIME?			
	SUDDENLY SPEED UP AND RUN AWAY?	<input checked="" type="checkbox"/>		
	BREAK UP IN PARTS AND EXPLODE?			
	CHANGE COLOR?			
	GIVE OFF SMOKE?			
	CHANGE BRIGHTNESS?			
	CHANGE SHAPE?			
	FLASH OR FLICKER?	<input checked="" type="checkbox"/>		
	DISAPPEAR AND REAPPEAR?	<input checked="" type="checkbox"/>		
	SPIN LIKE A TOP? <i>Talk from it like man</i>			
	MAKE A NOISE? <i>Talk from it like man with equipment</i>			
	FLUTTER OR WOBBLE?			
14. WHAT DREW YOUR ATTENTION TO THE PHENOMENON?				
<p><i>Talk from this creation (English) like a man or two with some electronic equipment with a materialization of of Radar etc or something equivalent too the forecast such to a man on earth from since its creation in space and 4 years of this before</i></p>				
A. HOW DID IT FINALLY DISAPPEAR?				
<p><i>flashed and went out of sight straight up</i></p>				
B. DID THE PHENOMENON MOVE BEHIND OR IN FRONT OF SOMETHING, LIKE A CLOUD, TREE, OR BUILDING AT ANY TIME?				
<input type="checkbox"/> YES <input checked="" type="checkbox"/> NO. IF "YES," DESCRIBE.				

15. DRAW A PICTURE THAT WILL SHOW THE SHAPE OF THE PHENOMENON. INCLUDE AND LABEL ANY DETAILS THAT MIGHT HAVE APPEARED AS WINGS OR PROTRUSIONS, AND INDICATE EXHAUST OR VAPOR TRAILS. INDICATE BY AN ARROW THE DIRECTION THE PHENOMENON WAS MOVING.

NICAP MASSACHUSETTS INVESTIGATING SUBCOMMITTEE

13 Friend Court
Wenham, Massachusetts

SUBJECT: UFO Sighting - Ipswich, Mass. - 10/02/67 - 8:30-9:15 PM EDT

DATE: 10 October 1967

FROM: Raymond E. Fowler
Chairman: NICAP MASS SUBCOM

TO: NICAP, Washington, D.C.

CC: COLORADO PROJECT
FTD (TDETR)

SIGHTING BACKGROUND:

On the evening of 2 October 1967 I returned home from lecturing on UFOs at 11:15 PM to find that a Mr. William Castle of the Ipswich Chronicle and NICAP MASS SUBCOM Investigator Robert Jackson had left telephone messages regarding a UFO sighting which had taken place in Ipswich earlier. I phoned both parties and learned that Bob Jackson had been informed about the sighting and that both he and Ipswich Chronicle reporter had interviewed the witnesses. Later, Investigator Jackson arrived at my home with preliminary data on the sighting. It was decided that the sighting was significant and further investigation was undertaken. The following summary with detailed attachments contain the NICAP MASS SUBCOM report on the sighting.

SIGHTING ACCOUNTS: (Typed from Investigator Jackson's Report)

<u>GROUP # 1</u>	Mr. and Mrs. Frank Dineen Leslie Road, Ipswich, Mass. 356-4914	Mrs. Thomas Quintiliani Leslie Road, Ipswich, Mass. 356-3186
	Miss Marion Norcross Leslie Road, Rowley, Mass. 887-2805	Mr. Kenneth Robinson Leslie Road, Ipswich, Mass. 356-2024

At 8:30 PM, Mr. Frank Dineen left his house to go to his car at the rear of the house. Upon leaving the door he noticed a stationary object brightly lighted with red and green and a very bright white light source which seemed to change position from one end of the object to the other end. He watched it for a moment and then called to Mrs. Dineen and Mrs. Norcross who were in the Dineen's house at the time. They both came outside and stood with Mr. Dineen and watched for approximately 5-minute. At this point it was at a 60° elevation and its position was 315° NW to the observers. Mr. Dineen had to get to a bank in Peabody before it closed so he left in the car. The object while at this position display a slight up-and-down motion and then began very slowly moving to the right drifting along in back of some trees and stopping at a position of 360°. At this point the object was somewhat obscured by the trees. Mrs. Dineen went into the house and made a quick phone call to her neighbor, Mrs. Thomas Quintiliani, who arrived a few moments later. The three women and a man named Kenneth Robinson (another neighbor) were standing at this time, on the right side of the house (50 feet right and north of their first position), and observed the object between two trees at

approximately 45° elevation and a position of 320° NW. The object turned erratically seemed to revolve, its color changed (or the lights changed position) and moved left-to-right within a space of 4°. At this time it appeared to approach and back off slowly.

The object appeared to most of the observers as being "oval-shaped" giving off a glow (yellow) which seemed to be most intense around the parallel circumference which illuminated the object and the sky in the area. After watching the object for approximately 10 minutes at this second position, Mrs. Dineen decided to report it to the Ipswich police and telephoned them about 8:50 PM. They gave her Bob Jackson's number. In the meantime, Miss Norcross had left around 8:40 to alert her father about the object. Patrolman Brian Lombard of the Ipswich police arrived about 9:00 PM and watched it moving away in the distance. By the time he arrived it was just a light source moving away and changing colors as previously described.

GROUP # 2

Mr. Hiram Norcross
Leslie Road,
Rowley, Mass. 887-2805

On October 3rd I interviewed Mr. Hiram Norcross at his home in Rowley. The Rowley-Ipswich town line runs between the Dineen and Norcross residences. The distance between the two homes is approximately 200 feet. Miss Norcross drove back to alert her father about 8:40 PM. He was welding in his mill at the rear of his house. She called to him and he came outside, looked up and saw a "perfectly circular" bright red disc moving "very slowly" across his line-of-sight at a position of 210° in the SSW moving from 140° SE to 320° NW at an elevation of 65°. He watched the object at this position for about 30 seconds and then got into the car with his daughter (Miss Norcross) and drove the short distance to the Dineen residence to view the UFO from there. When he arrived the object was moving away to the NW and diminishing in size. He told me he left because "there was not much to see at that distance" and he wanted to get back to his mill and finish his welding job. Mr. Norcross told me that the object, even from Dineen's house, still appeared to be circular and that he could not detect any color change from the red. He left for the mill about 8:50 PM. During my interview I asked him what the apparent size of the object was and he pointed to a pulley on a wire of comparable apparent size which subtended about 2°.

GROUP # 3

Patrolman Brian Lombard
8 Capeview Road,
Ipswich, Mass. 356-3328

By the time Lombard arrived all that could be seen was a light source changing colors moving away in the distance. He said that it could have been anything and that one could not tell whether it were an aircraft or not. He did note that it was changing from red to white and back to red.

INVESTIGATOR'S COMMENTS:

Mrs. Dineen's sketch illustrating a "domed" object is probably partly imaginative and based upon an object that she and her husband had seen on Rt. #128 in Danvers in the Fall of 1965 which resembled "two pie plates stuck together". She mentioned other cars had pulled off Rt. #128 to watch this object.

However, from the other observer's accounts, the characteristics most emphasized was the: 1) oval shape 2) illuminating glow about the object and sky 3) lights position changing and revolving 4) side-to-side motion 5) "no sound" 6) DOGS BARKING (See Animal Reaction).

All witnesses involved are of average intelligence. Most were unable to express themselves at any length in their narratives. Mrs. Dineen seemed to be best able to express herself. I re-contacted Mrs. Dineen concerning the question of distance. She confirmed, as she did with the others verbally on the date of the sighting, that to be under the object, she would have to approximately 500 feet in the direction of the object. However, I took compass readings at both positions of the observers which were approximately 50 feet apart (Group # 1) in parallel with the object's path from 315° NW at the first position. When the observers were at the left side of the house (see sketch), the object was at a NW position and then it moved to the right for 45° into the North. Then the observers traversed the 50 feet parallel with the object's path to their second position on the right hand side of the house. It again regained a NW position. In other words, the observer movement of 50 feet in parallel and in the same Northward direction as the object OVERTOOK the 45° distance that the object travelled from its first NW position. Therefore, the object very likely was closer than 500 feet. (see sketch and triangulation). Mrs. Dineen told me that she had not understood the question concerning the distance of the object when she first had answered the question on the form.

On October 4th I returned to the Dineen's home to obtain Frank Dineen's filled-in UFO report form. I again questioned Mr. and Mrs. Dineen as to the actual shape of the red, green and white lights. They stated that they could not actually discern separate lights on the object but that the object itself seemed to be changing colors. The center white light may have had a roundish shape and been attached to the oval object but they were not sure. I think that the overall description of the object and lights indicate that the object itself was changing color. It is strange that Mr. Norcross only saw the color red. The Group #1 description of apparent size was 1° as opposed to Mr. Norcross estimate of 2°. He felt he was much closer at his mill and wished he had stayed there instead of joining the others.

CHAIRMAN'S COMMENTS AND EVALUATION:ANIMAL REACTION:

Everyone remembered distinctly that they heard dogs barking throughout the area during the sighting. No one remembers hearing them before the sighting or do they remember if they stopped barking after the sighting. None of the witnesses ever bothered to check and see whose dog(s) were barking.

I had Investigator Jackson do some checking on this aspect of the

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- ☒ d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- ☒ b. Dull moonlight
- c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- ☒ c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- ☒ a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- ☒ d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- ☒ a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

a street light

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - ☒ c. Sharply outlined
 - d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

- a. Appear to stand still at any time?
- b. Suddenly speed up and rush away at any time?
- c. Break up into parts or explode?
- d. Give off smoke?
- e. Change brightness?
- f. Change shape?
- g. Flash or flicker?
- h. Disappear and reappear?

<input checked="" type="radio"/> Yes	No	Don't know
Yes	<input checked="" type="radio"/> No	Don't know
Yes	<input checked="" type="radio"/> No	Don't know
Yes	<input checked="" type="radio"/> No	Don't know
<input checked="" type="radio"/> Yes	No	Don't know
Yes	<input checked="" type="radio"/> No	Don't know
Yes	<input checked="" type="radio"/> No	Don't know
<input checked="" type="radio"/> Yes	No	Don't know

sighting. His findings are summarized below:

- 1) A family named Fowler (no relation to me) on Leslie Road had both of their dogs shot on 10/7/67 because they were attacking each other. A German shepherd badly mauled the other dog, a Collie, and both were done away with.
- 2) Mrs. Quintiliani thought her dog may have caused the others to fight as her female dog was "in heat" so she had her dog shot.
- 3) A Mrs. Clark Budd of Leslie road who owns a Mink Farm stated that both of her dogs were barking on the night of the sighting and she remembers that one kept on barking up on a nearby hill and would not come home when called for a half-hour.

To attribute the temperament of the dogs and the resultant extermination of the dogs to some effect caused by the UFO is pure conjecture. It is most interesting that many dogs were heard barking during the sighting. This and other aspects of the sighting bear resemblance to other UFO sightings.

ADDITIONAL DATA:

The trees which the UFO moved behind were about 150 feet from the witnesses (Group #1) and about 50 feet high.

ADVERTISING PLANE: Not airborne on this date

WEATHER: (U.S. Weather, Logan Airport, Boston, Mass.)

TIME: 8:30 PM TEMP: 55° VISIBILITY: Clear CEILING: Unlimited

WIND DIRECTION: South WIND SPEED: 9 mph

ASTRONOMICAL: Nothing in directions noticed that would give observers an impression of a large oval object. Movements, size, etc. rule out astronomical phenomena.

SATELLITE DATA: Not Applicable

CONVENTIONAL AIRCRAFT:

Configuration and noiseless factors seem to rule out aircraft unless all observers were greatly exaggerating. Color of lights were conventional but not description.

EVALUATION:

As one studies the complete report, it is apparent that many UFO characteristics were observed. It is felt that the report is significant and falls into the realm of an Unidentified Flying Object.

NOTE: I phoned several police stations along the path the object moved off but with negative results. (on 10/2/67, late PM)

Respectfully submitted,
Raymond E. Fowler

UFO SIGHTING REPORT

I. PERSONAL ACCOUNT

In your own words, Please describe the incident as it happened. (If additional pages are needed, be sure they are numbered.)

I WENT OUT INTO MY BACK YARD TO GO
MY CAR, AS I LOOKED UP I SAW WHAT
APPEARED TO BE A U.F.O. I RECO-
GNIZED IT BECAUSE I HAD SEEN
ANOTHER ONE TWO YEARS PREVIOUS.
I SUMMONED MY WIFE + OTHER NEIGHB
THE OBJECT WAS FLAT - OVAL - SOME
LIKE A FOOTBALL. WITH THREE LIGHT
RED, GREEN + WHITE (PROMINENT). HOVER-
+ MOVING SLOWLY SIDEWAYS - BACK
FORTH I WATCHED IT FOR ABOUT
15 MINUTES + LEFT TO GO OUT

Note to observer: In filling out this form, please be as complete and accurate as possible. Some of the information asked for may not apply to your sighting or may be unavailable to you. In such cases, please indicate.

II. ENVIRONMENTAL SITUATION

1. What was your exact location when you observed the UFO(s)? (Include the name of the city or town you were in, or the distance to the nearest city or town.) Ipswich
2. What was the date? 11/2/67
3. How long did you observe the object(s)? Hours: _____ Minutes: 15 Seconds: _____
From _____ A.M. _____ P.M. 8:30 ZONE (When FIRST seen)
To _____ A.M. _____ P.M. 8:45 ZONE (When LAST seen)
4. Assuming you had stayed in one place, what is the longest time you COULD HAVE OBSERVED the UFO(s)?
Hours: _____ Minutes: 60 Seconds: _____
5. How did you first happen to notice the object(s)?
Look up in the sky
6. What had you just been doing?
Watching T.V.
7. A. In what direction did you FIRST see the Object(s)? (Indicate this in the diagram by drawing an arrow from the center of the circle (observer's position) to the point on edge representing the object's position. Label this point No. 1.
B. In what direction did you LAST see the object(s)? (Indicate by drawing a second arrow labeled No. 2.)

8. Estimate the MINIMUM distance and altitude of the object(s) from you and how you determined this measurement.
a. distance: 500 FT. b. altitude: 2 miles
9. Estimate the elevation (in degrees) of the object(s) in the sky. Mark position on the dotted line in the diagram. If elevation of object changed, please mark BOTH highest position and lowest position.

(point directly overhead)

10. Did you observe the object(s) through any of the following? (Circle) Include information on type of equipment: model, type of film, filters, etc. (See question number 45.) NO
- | | |
|-----------------|-----------------|
| a. eyeglasses | f. binoculars |
| b. sunglasses | g. telescope |
| c. windshield | h. theodolite |
| d. windowpane | i. still camera |
| e. movie camera | j. other |
11. Was object(s) observed by radar? NO If so, where was the radar located? (Give name(s) of radar operator(s) and information on speed and flight path(s), if available.)
12. Please describe weather conditions and type of sky; i.e. bright daylight, nighttime, dusk, etc. Were stars or moon visible? CLEAR SKY NIGHT. - NO MOON
13. Was there any wind? NO If so, please give direction and speed as accurately as you can.
14. What was the position of the sun and/or the moon in relation to object(s) and to you? (Please explain.)
15. Briefly describe the type of terrain in the area.
WOODY - HILLY
16. Did you see any conventional aircraft in the area immediately before, during, or after the incident? YES
17. Please list any airport, military, governmental, or research installation(s) in the area. Are there any other unique features or landmarks (either natural or manmade) in the vicinity? NO If so, please describe.
NIKI SITE IN DANCERS
SAGAMORE HILL I-SWICH
18. Sketch or include a map of the area, labeling north, your position, the apparent course or position(s) of object(s) and any other important landmarks. (Please use separate piece of paper for sketch and attach to this report.)

DESCRIPTION OF OBJECT(S)

19. Were you able to see the object(s) clearly? Please describe any limiting factors.
YES - FOR THAT DISTANCE
20. Did you see more than one object? NO If so, how many? NO Make a sketch showing formation and position changes
MOVED SLOWLY - BACK & FORTH
GREEN WHITE ALSO CLOSER &
RED UP & DOWN
21. Did the objects all appear to be similar to one another? NO If not, describe the differences in question #22.
22. Please give a detailed description of the object(s), including shape, color, lights, surface features (if any), etc. Sketch the object(s) in detail according to your description.

RED, GREEN & WHITE - MOSTLY WHITE
BLINKING LIGHTS - SHAPED LIKE
FOOT BALL

23. If only 1 object was seen, did they seem to maintain fixed positions relative to one another? In other words, could they have been attached to a solid object? Please explain. yes

24. Did object(s) leave any physical evidence of its presence (i.e., burns, radioactivity, disturbed ground, wreckage, other)? Please describe. no

Were any samples taken? ☐ Yes ☐ No

By Whom? _____ Where to? _____

Was any analysis done? ☐ Yes ☐ No By Whom? _____

Please summarize results if known. If report is available, please attach copy.

25. Did object(s) make any sound? no If so, what kind?

26. Did object(s) produce heat? no If so, please explain.

27. Did object(s) produce an odor? no If so, please describe it.

28. Did object(s) appear to be solid or gaseous? Solid

29. Was object(s): (circle one) a. fuzzy or blurred? b. like a bright star? c. sharply outlined

30. How would you describe the brightness of the object(s)? (Circle one)
a. brighter than the sun? e. same brightness as the background?
b. brighter than the moon? f. darker than the background?
c. brighter than any star (or planet)? g. other (explain)?
d. brighter than the background?

31. Was the object(s): (circle one)
a. self-luminous? b. dull finish? c. reflecting? d. transparent?

32. (Circle the items which apply and DESCRIBE as clearly as you can.) Did the object(s):
a. appear to rotate (as a whole or in part)? f. leave any visible trail?
b. change shape? g. drop anything?
c. change color? h. separate into parts or explode?
d. change brightness? i. disappear and reappear?
e. give off smoke or vapor? j. appear to affect any animals?

33. Did object(s) appear to affect any mechanical or electrical devices (i.e., automobile engine, headlights, radio, T.V., appliances, clocks, watches, etc.)? no If so, please explain in detail. (include make, model, transmission type if automobile, etc.)

POSSIBLE DOGS WERE

34. Can you describe the interior of the object(s) in any way? NO

35. Do you have any reason to believe the object(s) was occupied? If so, please explain. NO

36. What was the APPARENT size of the object(s) compared with the following familiar objects?
(Note: The moon is the same size as a pencil eraser (1/4") held at arm's length) Please check the appropriate boxes.

THE OBJECT WAS

THAN

smaller	same size	larger	familiar objects
			than a. faint star
			than b. bright star
			than c. object half as large as the moon
		<input checked="" type="checkbox"/>	than d. the moon
			than e. dime at arm's length
			than f. nickel at arm's length
			than g. quarter at arm's length
			than h. half-dollar at arm's length
			than i. an orange at arm's length
			than j. other object at arm's length: PLEASE SPECIFY ()

37. What would you estimate the ACTUAL size of the object(s) to be (measured in feet along its greatest dimension)?

III. MOVEMENT OF OBJECT(S)

38. In what direction was the object(s) traveling? North - northwest

39. Describe the movement of the object(s), including the path(s) and nature of motion (i.e. steady, wobbling, waving, jerky, etc.). Did it (they) move significantly with respect to background of stars or landscape? Sketch path(s) showing orientation of object(s) in sky.

mostly stationary - blinking - side to side
close then BACK - rotating

40. Did object pass in front of or behind any fixed physical objects such as trees, clouds, mountains, buildings, etc. Describe any notable relationships to such objects if observed.

DISAPPEARED behind tree branches

41. Can you estimate the speed of the object(s) NO How was this determined? _____

42. Did the object(s) disappear while you were watching? NO If so, how? _____

44. Do not give names and addresses of other witnesses, if any. Indicate relationship of witnesses to you, if it exists, and whether their sightings occurred before, during or after yours.

45. Have you seen other objects of an unidentified nature? YES If so, use separate forms or attach pages to describe these sightings.

45. Please enclose photographs, motion pictures, news clippings, notes of radio or television programs (include time, station and date, if possible) regarding this or similar observations or any other background material. IF PHOTOGRAPHS OR MOTION PICTURES ARE ENCLOSED, BE SURE TO INCLUDE ALL INFORMATION ON CAMERA TYPE, FILM TYPE, FILTERS, CAMERA SETTINGS, WHERE DEVELOPED, ETC. ORIGINAL NEGATIVES ARE NECESSARY FOR PHOTOGRAPHIC ANALYSIS. If you wish to have items returned to you, please indicate.

46. Have any other groups or individuals interviewed you? If so, please give names and date of interview.

DATA SHEET - UNIDENTIFIED FLYING OBJECT(S)

Return to: Raymond E. Fowler, CHAIRMAN Tel. 458-4815
~~NICAD MASSACHUSETTS SUBCOM.~~
 13 Friend Court, Wenham, Mass.

I. PERSONAL ACCOUNT

14. Did the object disappear while you were watching it? If so, how?

yes it went ~~in~~ in the clouds

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

it moved behind:

a cloud

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

in front of:

a cloud

17. Tell in a few words the following things about the object:

a. Sound

it had no sound

b. Color

it was a white object

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

5 matches would have covered the object

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

II. ENVIRONMENTAL SITUATION

1. What was your exact location when you observed the UFO(s)? (Include the name of the city or town you were in, or the distance to the nearest city or town.) 10560 Rd. T. 10. 11

2. What was the date? 11/3/61 5:15

3. How long did you observe the object(s)? Hours: _____ Minutes: 45 Seconds: _____

From _____ A.M. 8:30 P.M. _____ ZONE (When FIRST seen)

To _____ A.M. 9:15 P.M. _____ ZONE (When LAST seen)

4. Assuming you had stayed in one place, what is the longest time you COULD HAVE OBSERVED the UFO(s)?

Hours: _____ Minutes: 15 Seconds: _____

5. How did you first happen to notice the object(s)?

Husband spotted hovering black light
in sky.

6. What had you just been doing?

watching television.

7. A. In what direction did you FIRST see the Object(s)? (Indicate this in the diagram by drawing an arrow from the center of the circle (observer's position) to the point on edge representing the object's position. Label this point No. 1.

B. In what direction did you LAST see the object(s)? (Indicate by drawing a second arrow labeled No. 2.)

8. Estimate the MINIMUM distance and altitude of the object(s) from you and how you determined this measurement.

a. distance: 500 ft b. altitude: _____

9. Estimate the elevation (in degrees) of the object(s) in the sky. Mark position on the dotted line in the diagram. If elevation of object changed, please mark BOTH highest position and lowest position.

DESCRIPTION OF OBJECT(S)

23. If object(s) were seen, did they seem to maintain fixed positions relative to one another? In other words, could they have been attached to a solid object? Please explain.

24. Did object(s) leave any physical evidence of its presence (i.e. burns, radioactivity, disturbed ground, wreckage, etc.)? Please describe.

Were any samples taken? ☐ Yes ☐ No

By Whom? _____ Where to? _____

Was any analysis done? ☐ Yes ☐ No By Whom? _____

Please summarize results if known. If report is available, please attach copy.

25. Did object(s) make any sound? no If so, what kind?

26. Did object(s) produce heat? no If so, please explain.

27. Did object(s) produce an odor? no If so, please describe it.

28. Did object(s) appear to be solid or gaseous? solid

29. Was object(s): (circle one) a. fuzzy or blurred? b. like a bright star? c. sharply outlined

30. How would you describe the brightness of the object(s)? (Circle one)

- | | |
|---|---------------------------------------|
| a. brighter than the sun? | e. same brightness as the background? |
| b. brighter than the moon? | f. darker than the background? |
| c. <u>brighter than any star (or planet)?</u> | g. other (explain)? |
| d. brighter than the background? | |

31. Was the object(s): (circle one)

- | | | | |
|--------------------------|-----------------|----------------|-----------------|
| a. <u>self-luminous?</u> | b. dull finish? | c. reflecting? | d. transparent? |
|--------------------------|-----------------|----------------|-----------------|

32. (Circle the items which apply and DESCRIBE as clearly as you can.) Did the object(s):

- | | |
|---|---|
| a. <u>appear to rotate (as a whole or in part)?</u> | f. leave any visible trail? |
| b. change shape? | g. drop anything? |
| c. <u>change color?</u> | h. separate into parts or explode? |
| d. change brightness? | i. disappear and reappear? |
| e. give off smoke or vapor? | j. <u>appear to affect any animals?</u> |

33. Did the object(s) appear to affect any mechanical or electrical devices (i.e. automobile engine, headlights, radio, T.V., appliances, clocks, watches, etc.)? no If so, please explain in detail. (include make, model, transmission type if automobile, etc.)

34. Can you describe the interior of the object(s) in any way? no

35. Do you have any reason to believe the object(s) was occupied? If so, please explain.
the light was quite dim

36. What was the APPARENT size of the object(s) compared with the following familiar objects?
(Note: The moon is the same size as a pencil eraser (1/4") held at arms length) Please check the appropriate boxes.

THE OBJECT WAS

THAN

smaller	same size	larger	familiar objects
			than a. faint star
			than b. bright star
			than c. object half as large as the moon
		<input checked="" type="checkbox"/>	than d. the moon
			than e. dime at arm's length
			than f. nickel at arm's length
			than g. quarter at arm's length
			than h. half-dollar at arm's length
			than i. an orange at arm's length
			than j. other object at arm's length: PLEASE SPECIFY ()

37. What would you estimate the ACTUAL size of the object(s) to be (measured in feet along its greatest dimension)?

III. MOVEMENT OF OBJECT(S)

38. In what direction was the object(s) traveling? west

39. Describe the movement of the object(s), including the path(s) and nature of motion (i.e. steady, wobbling, waving, jerky, etc.). Did it (they) move significantly with respect to background of stars or landscape? Sketch path(s) showing orientation of object(s) in sky.
moving north w/ a wobble - hovering in the
clouds then far away, left to
right and not at all - it didn't count

40. Did object pass in front of or behind any fixed physical objects such as trees, clouds, mountains, buildings, etc. Describe any notable relationships to such objects if observed.
moving from a landscape of clouds

41. Can you estimate the speed of the object(s) _____ How was this determined? _____
very slowly

42. Did the object(s) disappear while you were watching? _____ If so, how? _____
yes, it disappeared

43. Please give names and addresses of other witnesses, if any. Indicate relationship of witnesses to you, if it exists, and whether their sightings occurred before, during or after yours.
44. Have you seen other objects of an unidentified nature? Yes If so, use separate forms or attached pages to describe these sightings.
45. Please enclose photographs, motion pictures, news clippings, notes of radio or television programs (include time, station and date, if possible) regarding this or similar observations or any other background material. IF PHOTOGRAPHS OR MOTION PICTURES ARE ENCLOSED, BE SURE TO INCLUDE ALL INFORMATION ON CAMERA TYPE, FILM TYPE, FILTERS, CAMERA SETTINGS, WHERE DEVELOPED, ETC. ORIGINAL NEGATIVES ARE NECESSARY FOR PHOTOGRAPHIC ANALYSIS. If you wish to have items returned to you, please indicate.
46. Have any other groups or individuals interviewed you? If so, please give names and date of interview.

NATIONAL INVESTIGATIONS COMMITTEE ON AERIAL PHENOMENA

1536 Connecticut Avenue N. W.

Washington 6, D. C.

NOU 7 9434

REPORT ON UNIDENTIFIED FLYING OBJECT(S)

This form includes questions asked by the United States Air Force and by other Armed Forces' investigating agencies, and additional questions to which answers are needed for full evaluation by NICAP.

After all the information has been fully studied, the conclusion of our Evaluation Panel will be published by NICAP in its regularly issued magazine or in another publication. Please try to answer as many questions as possible. Should you need additional room, please use another sheet of paper. Please print or typewrite. Your assistance is of great value and is genuinely appreciated. Thank you.

1. Name *M. J. [unclear]* Place of Employment *USAF*
 Address *[unclear]* Occupation *1st Lt*
 Telephone *[unclear]* Education *High School*
 Special Training *[unclear]*
 Military Service *[unclear]*
2. Date of Observation *1-1-68* Time *11:00* AM PM Time Zone
3. Locality of Observation *[unclear]*
4. How long did you see the object? *2 min* Hours Minutes Seconds
5. Please describe weather conditions and the type of sky; i.e., bright daylight, nighttime, dusk, etc.
6. Position of the Sun or Moon in relation to the object and to you. *to the E*
7. If seen at night, twilight, or dawn, were the stars or moon visible? *yes*
8. Were there more than one object? *no* If so, please tell how many, and draw a sketch of what you saw, indicating direction of movement, if any.
9. Please describe the object(s) in detail. For instance, did it (they) appear solid, or only as a source of light; was it revolving, etc? Please use additional sheets of paper, if necessary.
10. Was the object(s) brighter than the background of the sky? *yes*
11. If so, compare the brightness with the Sun, Moon, headlights, etc.
12. Did the object(s) — *flashed* (Please elaborate, if you can give details.)
 a. Appear to stand still at any time?
 b. Suddenly speed up and rush away at any time?
 c. Break up into parts or explode?
 d. Give off smoke?
 e. Leave any visible trail?
 f. Drop anything?
 g. Change brightness?
 h. Change shape?
 i. Change color?
13. Did the object(s) at any time pass in front of, or behind of, anything? If so, please elaborate giving distance, size, etc, if possible.
14. Was there any wind? If so, please give direction and speed.
15. Did you observe the object(s) through an optical instrument or other aid, windshield, windowpane, storm window, screening, etc? What?
16. Did the object(s) have any sound? What kind? How loud?
17. Please tell if the object(s) was (were) —
 a. Fuzzy or blurred.
 b. Like a bright star.
 c. Sharply outlined.

18. Was the object —

- ☒ a. Self-luminous?
- b. Dull finish?
- c. Reflecting?
- d. Transparent?

19. Did the object(s) rise or fall while in motion?

Back & forth, not rising

20. Tell the apparent size of the object(s) when compared with the following held at arm's length:

- | | | |
|---|------------------|---------------|
| a. Pinhead | d. Nickel | g. Orange |
| b. Pea | e. Half dollar | h. Grapefruit |
| <input checked="" type="checkbox"/> c. Dime | f. Silver dollar | i. Larger |

Or, if easier, give apparent size in inches on a ruler held at arm's length.

21. How did you happen to notice the object(s)?

Was called to room just as it

22. Where were you and what were you doing at the time?

Restroom to the south

23. How did the object(s) disappear from view?

slowly

24. Compare the speed of the object(s) with a piston or jet aircraft at the same apparent altitude.

slow

25. Were there any conventional aircraft in the location at the time or immediately afterwards? If so, please elaborate.

26. Please estimate the distance of the object(s).

27. What was the elevation of the object(s) in the sky?

Please mark on this hemisphere sketch:

28. Names and addresses of other witnesses, if any.

Sam & Frank D... M... & P... 1711

29. Please draw a map of the locality of the observation showing North; your position; the direction from which the object(s) appeared and disappeared from view; the direction of its course over the area; roads, towns, villages, railroads, and other landmarks within a mile.

30. Is there an airport, military, governmental, or research installation in the area?

31. Have you seen other objects of an unidentified nature? If so, please describe these observations, using a separate sheet of paper.

32. Please enclose photographs, motion pictures, news clippings, notes of radio or television programs (include time, station and date, if possible) regarding this or similar observations, or any other background material. We will return the material to you.

33. Were you interrogated by Air Force investigators? By any other federal, state, county, or local officials? If so, please state the name and rank or title of the agent, his office, and details as to where and when the questioning took place.

LICHT POLICE

Were you asked or told not to reveal or discuss the incident? If so, were any reasons or official orders mentioned? Please elaborate carefully.

NO

34. We should like permission to quote your name in connection with this report. This action will encourage other responsible citizens to report similar observations to NICAP. However, if you prefer, we will keep your name confidential. Please note your choice by checking the proper statement below. In any case, please fill in all parts of the form, for our own confidential files. Thank you for your cooperation.

You may use my name. ()

Please keep my name confidential. ()

35. Date of filling out this report:

10/2/67

Signature:

M. T. ...

a neighbor had called my attention to it at about
8:40 calling on the telephone. When I arrived where
the object could be seen it was in a distance
between two trees. The first color I had seen was
red. It then seemed to move from left to right
showing also white and greenish blue colors as
it turned around. It seemed to be in an oval
shape. Shortly it disappeared from sight at
about 9:15 P.M. The sky was very bright at
this time. After it disappeared the sky was
bright even though there were stars out.

Mrs. T. Quintiliani

Red  Jewel Blue
white
seemed to keep
turning around
gradually moving
out of sight.

Mrs. Thomas Quintiliani

20. Do you think you can estimate the speed of the object?

(Circle One)

Yes

☒ No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

☒ No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object?
(Circle One):

- a. Inside a building
- b. In a car
- ☒ c. Outdoors
- d. In an airplane (type) _____
- e. At sea
- f. Other _____

23. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- ☒ d. Near an airfield? 7 miles from AFB
- e. Flying over a city?
- f. Flying over open country?
- g. Other suburban area

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

NA

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

☒ No

25. Did you observe the object through any of the following?

- | | | | | | |
|-----------------|--------------------------------------|----|----------------|-----|----|
| a. Eyeglasses | <input checked="" type="radio"/> Yes | No | e. Binoculars | Yes | No |
| b. Sun glasses | Yes | No | f. Telescope | Yes | No |
| c. Windshield | Yes | No | g. Theodolite | Yes | No |
| d. Window glass | Yes | No | h. Other _____ | | |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

A cigar with a dome toward the front of the object

MW

DATA SHEET - UNIDENTIFIED FLYING OBJECT(s)

Please answer the following questions concerning the Aerial Phenomena you observed. The data will be used for research purposes. Thank you for your cooperation in this matter.

45
 Hours Minutes Seconds

a. Certain
 b. Fairly certain

c. Not very sure
 d. Just a guess

5.1 How was time in sight determined? watches 8:30 to 9:15

5.2 Was object in sight continuously? Yes ✓ No _____

6. What was the condition of the sky?

DAY
 a. Bright
 b. Cloudy

(a.) NIGHT
 a. Bright
 b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
 b. In back of you
 c. To your right

d. To your left
 e. Overhead
 f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- ☒ c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- ☒ c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- ☒ a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- ☒ a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- ☒ d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- ☒ a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

different colors white, red, green bright around

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - ☒ c. Sharply outlined
 - d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

- | | | | |
|---|-----|-------------------------------------|------------|
| a. Appear to stand still at any time? | Yes | <input checked="" type="radio"/> No | Don't know |
| b. Suddenly speed up and rush away at any time? | Yes | <input checked="" type="radio"/> No | Don't know |
| c. Break up into parts or explode? | Yes | <input checked="" type="radio"/> No | Don't know |
| d. Give off smoke? | Yes | <input checked="" type="radio"/> No | Don't know |
| e. Change brightness? | Yes | <input checked="" type="radio"/> No | Don't know |
| f. Change shape? | Yes | <input checked="" type="radio"/> No | Don't know |
| g. Flash or flicker? | Yes | <input checked="" type="radio"/> No | Don't know |
| h. Disappear and reappear? | Yes | <input checked="" type="radio"/> No | Don't know |

14. Did the object disappear while you were watching it? If so, how? *It seemed to be going away toward New Hampshire at 9:15 P.M. by getting smaller.*

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what it moved behind: trees

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound no sound at all
b. Color it would change white to red to green

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note much of the object is covered by the head of the match. If you had performed this experiment at the time of sighting, how much of the object would have been covered by the match head?

about twice as big.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any detail of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

Sketch: A circle with a line pointing to it labeled "white", "red", and "green" grouped by a bracket and labeled "lights". An arrow points from the circle to the right, labeled "west to north west".

20. Do you think you can estimate the speed of the object?

(Circle One)

Yes

☒ No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

☒ No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object?

(Circle One)

a. Inside a building

b. In a car

☒ c. Outdoors

d. In an airplane (type) _____

e. At sea

f. Other _____

23. Were you (Circle One)

a. In the business section of a city?

b. In the residential section of a city?

☒ c. In open countryside?

d. Near an airfield?

e. Flying over a city?

f. Flying over open country?

g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions.

24.1 What direction were you moving? (Circle One)

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

f. Southwest

☒ h. Northwest

24.2 How fast were you moving? 20 miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

☒ Yes

when I got outside my car

25. Did you observe the object through any of the following?

a. Eyeglasses

Yes

☒ No

e. Binoculars

Yes

☒ No

b. Sunglasses

Yes

☒ No

f. Telescope

Yes

☒ No

c. Microscope

Yes

☒ No

g. Theodolite

Yes

☒ No

d. Other _____

Yes

☒ No

h. Other _____

Yes

☒ No

26. In order to give you a better idea of a picture or possible of what you saw, draw a picture of the object or objects which, when viewed up in the sky, would give the same appearance as the object which you saw.

Like a helicopter moving around but not going any place with white, red, green light

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? just one
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

^{1st} Sept. - in Georgetown
1967 First part of month

31. Was anyone else with you at the time you saw the object? (Circle One)

☒ Yes

No

31.1 IF you answered YES, did they see the object too? (Circle One)

☒ Yes

No

31.2 Please list their names and addresses:

Mr. + Mrs. Frank Dineen	Leslie Rd.	Ipswich
Mrs. Lee Quintilliani	"	" "
Mr. Ken Robinson	"	" "
Mr. H.R. Norcross	"	" "

32. Please give the following information about yourself:

NAME	<u>Norcross</u>	<u>Marion</u>	<u>Frances</u>
	Last Name	First Name	Middle Name
ADDRESS	<u>Leslie Rd.</u>	<u>Ipswich</u>	<u>Mass.</u>
	Street	City	Zone State
TELEPHONE NUMBER	<u>887-2805</u>	AGE	<u>20</u> SEX <u>Female</u>

Indicate any additional information about yourself, including any special experience, which might be pertinent

33. When and to whom did you report that you had seen the object?

Monday 2 Oct. 1967

Day

Month

Year

34. Date you completed this questionnaire:

Monday 2 Oct. 1967
Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

When I saw them in Georgetown there were four of them going around in a circle all four were white. ^{sighting of early Sept}

Mrs. Dineen and I was inside Mr. Dineen called us outside in back yard at 8:30 P.M. we watched them then walked down to neighbors walked back then drove neighbor back and picked my father up looked saw it again then went back with other neighbor to Mrs. Dineens and stayed until it left.

UNIDENTIFIED FLYING OBJECTS PROJECT

DATA SHEET - UNIDENTIFIED FLYING OBJECT(s)

Please answer the following questions concerning the Aerial Phenomena you observed. The data will be used for research purposes. Thank you for your cooperation in this matter.

Return to: Raymond E. Fowler, CHAIRMAN Tel. 468-4815
NICAP MASSACHUSETTS SUBCOM.
13 Friend Court, Wenham, Mass.

UFO SIGHTING REPORT

I. PERSONAL ACCOUNT

In your own words, Please describe the incident as it happened. (If additional pages are needed, be sure they are numbered.)

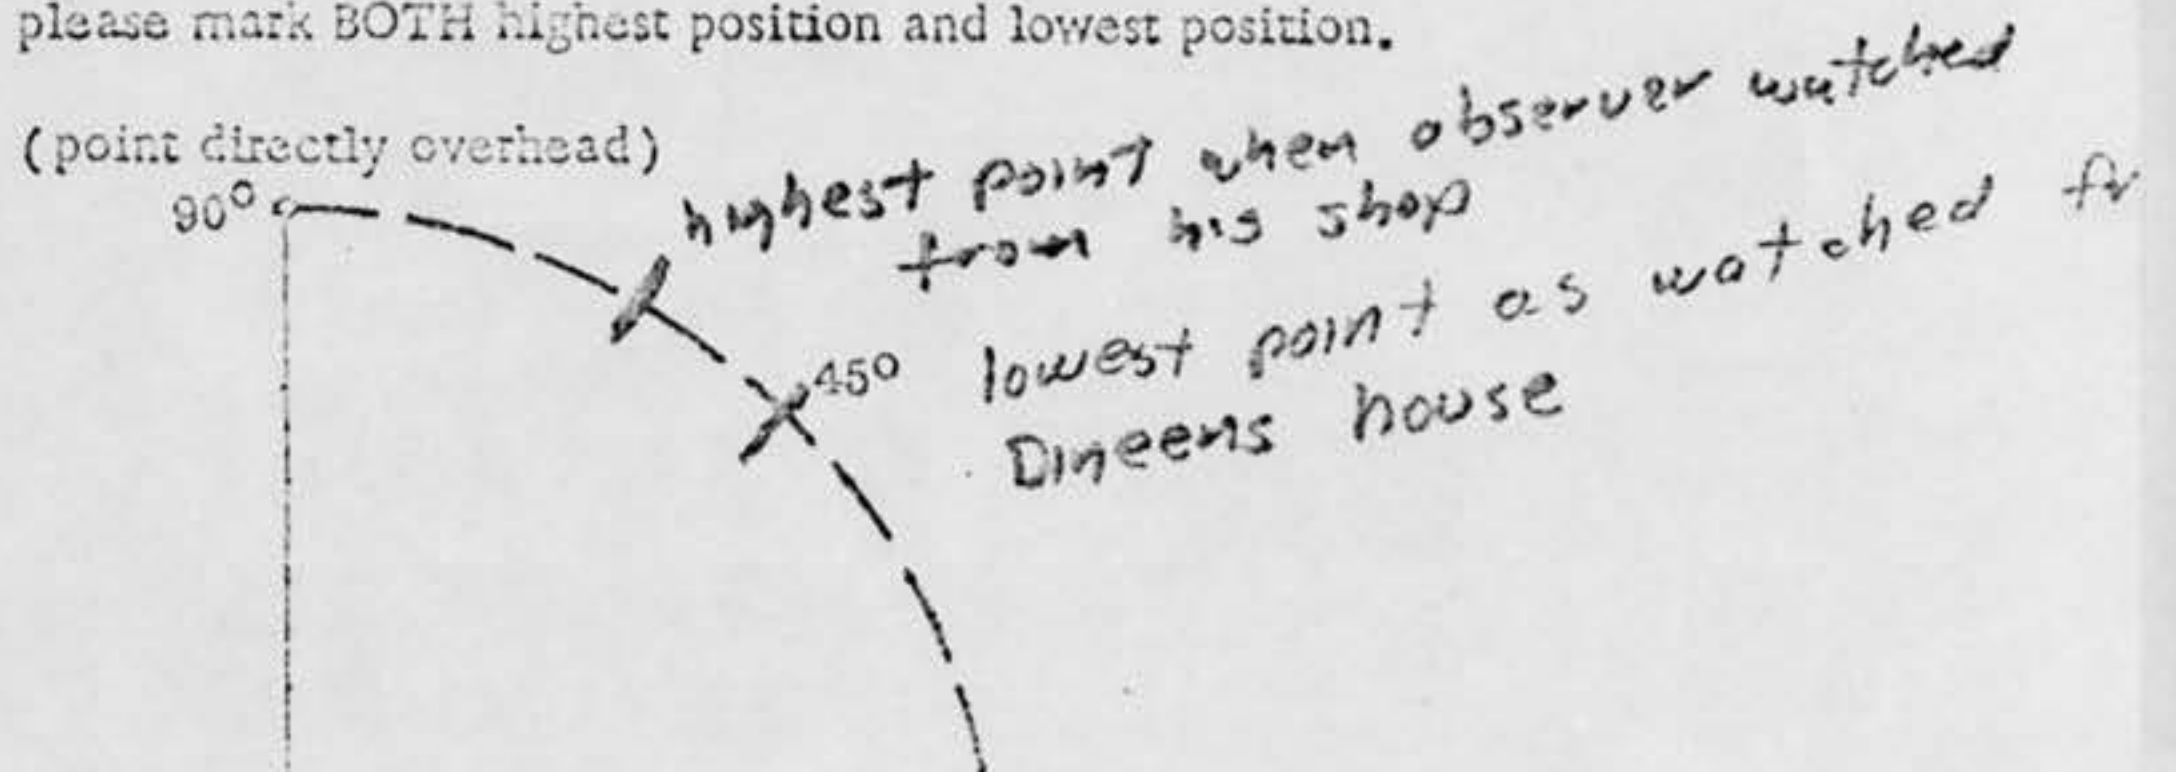

Note to observer: In filling out this form, please be as complete and accurate as possible. Some of the information asked for may not apply to your sighting or may be unavailable to you. In such cases, please indicate.

II. ENVIRONMENTAL SITUATION

1. What was your exact location when you observed the UFO(s)? (Include the name of the city or town you were in, or the distance to the nearest city or town.) Ipswich, Mass
2. What was the date? Oct. 2, 1967
3. How long did you observe the object(s)? Hours: _____ Minutes: 15 Seconds: _____
From _____ A.M. 8:35 P.M. _____ ZONE (When FIRST seen)
To _____ A.M. 8:50 P.M. _____ ZONE (When LAST seen)
4. Assuming you had stayed in one place, what is the longest time you COULD HAVE OBSERVED the UFO(s)?
Hours: _____ Minutes: 10 Seconds: _____
5. How did you first happen to notice the object(s)?
daughter called my attention to it
6. What had you just been doing?
welding in my shop
7. A. In what direction did you FIRST see the Object(s)? (Indicate this in the diagram by drawing an arrow from the center of the circle (observer's position) to the point on edge representing the object's position. Label this point No. 1.
B. In what direction did you LAST see the object(s)? (Indicate by drawing a second arrow labeled No. 2.)

8. Estimate the MINIMUM distance and altitude of the object(s) from you and how you determined this measurement.
a. distance: NO b. altitude: NO
9. Estimate the elevation (in degrees) of the object(s) in the sky. Mark position on the dotted line in the diagram. If elevation of object changed, please mark BOTH highest position and lowest position.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

NA

H N

10. Did you observe the object(s) through any of the following? (Circle) Include information on type of equipment: model, type of film, filters, etc. (See question number 45.)
- | | |
|-----------------|-----------------|
| a. eyeglasses | f. binoculars |
| b. sunglasses | g. telescope |
| c. windshield | h. theodolite |
| d. windowpane | i. still camera |
| e. movie camera | j. other |
11. Was object(s) observed by radar? _____ If so, where was the radar located? (Give name(s) of radar operator(s) and information on speed and flight path(s), if available.)
don't know
12. Please describe weather conditions and type of sky; i.e. bright daylight, nighttime, dusk, etc. Were stars or moon visible?
nighttime - clear stars visible - no moon
13. Was there any wind? no If so, please give direction and speed as accurately as you can.
14. What was the position of the sun and/or the moon in relation to object(s) and to you? (Please explain.)
none
15. Briefly describe the type of terrain in the area.
Hilly - wooded
16. Did you see any conventional aircraft in the area immediately before, during, or after the incident? no
17. Please list any airport, military, governmental, or research installation(s) in the area. Are there any other unique features or landmarks (either natural or manmade) in the vicinity? _____ If so, please describe.
Sagamore Hill, Hamilton - Air Force radio telescope
18. Sketch or include a map of the area, labeling north, your position, the apparent course or position(s) of object(s) and any other important landmarks. (Please use separate piece of paper for sketch and attach to this report.)

DESCRIPTION OF OBJECT(S)

19. Were you able to see the object(s) clearly? Please describe any limiting factors. *yes*
20. Did you see more than one object? no If so, how many? _____ Make a sketch showing formation and position changes
21. Did the objects all appear to be similar to one another? _____ If not, describe the differences in question #22.
22. Please give a detailed description of the object(s), including shape, color, lights, surface features (if any), etc. Sketch the object(s) in detail according to your description.

see sketch

23. If only lights were seen, did they seem to maintain fixed positions relative to one another? In other words, could they have been attached to a solid object? Please explain.

only luminous red object

24. Did object(s) leave any physical evidence of its presence (i.e. burns, radioactivity, disturbed ground, wreckage, other)? Please describe. *none*

Were any samples taken? ☐ Yes ☒ No

By Whom? _____ Where to? _____

Was any analysis done? ☐ Yes ☐ No By Whom? _____

Please summarize results if known. If report is available, please attach copy.

25. Did object(s) make any sound? *no* If so, what kind?

26. Did object(s) produce heat? *no* If so, please explain.

27. Did object(s) produce an odor? *no* If so, please describe it.

28. Did object(s) appear to be solid or gaseous? *solid*

29. Was object(s): (circle one) a. fuzzy or blurred? b. like a bright star? c. sharply outlined

30. How would you describe the brightness of the object(s)? (Circle one)

- | | |
|--|---------------------------------------|
| a. <u>brighter than the sun?</u> | e. same brightness as the background? |
| b. <u>brighter than the moon?</u> | f. darker than the background? |
| c. brighter than any star (or planet)? | g. other (explain)? |
| d. brighter than the background? | |

31. Was the object(s): (circle one)

- | | | | |
|--------------------------|-----------------|----------------|-----------------|
| <u>a. self-luminous?</u> | b. dull finish? | c. reflecting? | d. transparent? |
|--------------------------|-----------------|----------------|-----------------|

32. (Circle the items which apply and DESCRIBE as clearly as you can.) Did the object(s):

- | | |
|--|--|
| a. appear to rotate (as a whole or in part)? <i>no</i> | f. leave any visible trail? <i>no</i> |
| b. change shape? <i>no</i> | g. drop anything? <i>no</i> |
| c. change color? <i>didn't detect color change</i> | h. separate into parts or explode? <i>no</i> |
| d. change brightness? <i>no</i> | i. disappear and reappear? <i>no</i> |
| e. give off smoke or vapor? <i>no</i> | j. appear to affect any animals? <i>dogs barking</i> |

33. Did the object(s) appear to affect any mechanical or electrical devices (i.e. automobile engine, headlights, radio, T.V., appliances, clocks, watches, etc.)? *no* If so, please explain in detail. (include make, model, transmission type if automobile, etc.)

34. Can you describe the interior of the object(s) in any way?

35. Do you have any reason to believe the object(s) was occupied? If so, please explain.

36. What was the APPARENT size of the object(s) compared with the following familiar objects?
(Note: The moon is the same size as a pencil eraser (1/4") held at arms length) Please check the appropriate boxes.

THE OBJECT WAS

THAN

smaller	same size	larger	familiar objects
			than a. faint star
			than b. bright star
			than c. object half as large as the moon
			than d. the moon
			than e. dime at arm's length
			than f. nickel at arm's length
		✓	than g. quarter at arm's length
			than h. half-dollar at arm's length
			than i. an orange at arm's length
			than j. other object at arm's length: PLEASE SPECIFY ()

37. What would you estimate the ACTUAL size of the object(s) to be (measured in feet along its greatest dimension)?

none

III. MOVEMENT OF OBJECT(S)

38. In what direction was the object(s) traveling? S.E 140° to 320° N.W

39. Describe the movement of the object(s), including the path(s) and nature of motion (i.e. steady, wobbling, waving, jerky, etc.). Did it (they) move significantly with respect to background of stars or landscape? Sketch path(s) showing orientation of object (s) in sky.

40. Did object pass in front of or behind any fixed physical objects such as trees, clouds, mountains, buildings, etc. NO
Describe any notable relationships to such objects if observed. above trees

41. Can you estimate the speed of the object(s) NO How was this determined? _____

42. Did the object(s) disappear while you were watching? _____ If so, how? _____

still visible when I left Dineen's House to go back and finish welding

43. Please give names and addresses of other witnesses, if any. Indicate relationship of witnesses to you, if it exists, and whether their sightings occurred before, during or after yours.
44. Have you seen other objects of an unidentified nature? NO If so, use separate forms or attached pages to describe these sightings.
45. Please enclose photographs, motion pictures, news clippings, notes of radio or television programs (include time, station and date, if possible) regarding this or similar observations or any other background material. IF PHOTOGRAPHS OR MOTION PICTURES ARE ENCLOSED, BE SURE TO INCLUDE ALL INFORMATION ON CAMERA TYPE, FILM TYPE, FILTERS, CAMERA SETTINGS, WHERE DEVELOPED, ETC. ORIGINAL NEGATIVES ARE NECESSARY FOR PHOTOGRAPHIC ANALYSIS. If you wish to have items returned to you, please indicate.
46. Have any other groups or individuals interviewed you? If so, please give names and date of interview.

no - only NICAP

Dear 

It was most gratifying to get your letter yesterday, and to know that you had found out what you had really seen.

No, now that you have identified your UFO, you will not need to send the questionnaire to Wright-Patterson AFB; we will let them know you are not going to send it.

And incidentally, we do not think you are a great big idiot; just remember that the only people who do not make mistakes are those who lack intelligence and the ability to observe the world around them. It takes a really big person to admit that he has made a mistake.

Thank you for letting us know what you saw.

Sincerely,

Civil Branch

October 12, 1967

Dear [REDACTED],

I fell like a dummy after writing to you saying that I saw three U.F.O.'s in the sky on October 3, but usually when I write a letter or something to be mailed it has the tendency to hang around my desk for about 12 years (I'm 17). Well with your letter I mailed it that night. I went to bed that night at about 11:30, and while listening to the radio, its a portable and under my pillow, I heard that N.A.S.A. was making the sky turn weird color's. What was happening was that N.A.S.A. was experimenting with the atmosphere. (If you remember, you probaly dont, I said I saw the same things about two years before.) The next day guess what was on the front page of the two most popular newspapers. "SPACESHIPS LAND AND RED AND GREEN STRIPED CREATURE'S APPEAR". No it didnt say that, but it did say, and explain,

that N.A.S.A. was experimenting with the atmosphere and that at the same time the following night the same thing would happen. Sure enough it did and I felt like an idiot, and a big one at that (I'm 6 foot 3 inches).

Well now that you have read the introduction to my question here it is: Should I fill out the questionnaire on the you-ef-owws (U.F.O.'s) because I ,NOW, know what I saw and certainly you know what it was. My address is on the bottom, and thanks again for listening to my complaints.

Yours Truly

BAY SHORE , NEW YORK

October 10, 1967

Dear [REDACTED]:

Reference your letter of October 3 regarding your sighting of an unidentified flying object (UFO), it is impossible to tell precisely what you saw unless we have more information.

If you will complete the attached questionnaire and send it in the postage free envelope we are providing to the address given on the envelope, it is quite possible that you will find out what you observed.

Sincerely,

Civil Branch

Dear Sirs,

I've read your March 1967 edition about U.F.O.'s and found it very interesting. All though I may not be a brain or some intellectual genius, I'm no dummy.

If the letter is still in your hands, and not in the wastepaper basket, I'll tell you the reason why I wrote to you. Tonight, at about 7:25, I went to look out of my window and saw three white objects that were about on the same horizon of the north star. They were drawn to my attention by one of my brothers and my mother. (I just reread what I wrote and I want to clarify something. "the objects" were like masses and they were not moving, but eventually they did disappear, as I will explain later. "the same horizon as the north star", I determined this because in the 10th grade, I'm in 12th now, I used an astrolabe to show the earth rotated.)

These masses that I mentioned were about 3 to 4 inches, from where I was, in diameter, ^{They were about 15-20000 ft high.} and as they faded away they just got larger and larger. They grew to about 5 or 6 inches wide. While I was observing this phenomena I was missing another phenomena (I Dream of Gennie). The first mass to go was the ^(The T.V. program) smallest and the brightest of the three. That left at about 7:40. The two other's, within the period of twenty minutes af-

ter the first one started to, you might say, "fuse" together until about 7:50 and then it started to blend in with the rest of the sky. I saw something like this about one or two years ago, but I didn't know who or where to give my information to.

Well if you have got this far and you are not asleep yet or have gone cross-eyed with my typing, I would like to thank you for your time and patience in reading this letter and trying to cope with my (AHEM!) jokes. You are probably piled down with papers, such as mine, and are filing them all in the proper place, the wastepaper basket. If you have any explanation what this thing was I would sure like to know about it. My address is below. Thanks again

yours truly,

Washington D.C.

Dear Sirs,

I've read your March 1967 edition about U.F.O.'s and found it very interesting. All though I may not be a brain or some intellectual genius, I'm no dummy.

If the letter is still in your hands, and not in the wastepaper basket, I'll tell you the reason why I wrote to you. Tonight, at about 7:25, I went to look out of my window and saw three white objects that were about on the same horizon of the north star. They were drawn to my attention by one of my brothers and my mother. (I just reread what I wrote and I want to clarify something. "the objects" were like masses and they were not moving, but eventually they did disappear, as I will explain later. "the same horizon as the north star", I determined this because in the 10th grade, I'm in 12th now, I used an astrolabe to show the earth rotated.)

These masses that I mentioned were about 3 to 4 inches, ^{They were about 10-20000 ft high.} from where I was, in diameter, and as they faded away they just got larger and larger. They grew to about 5 or 6 inches wide. While I was observing this phenomena I was missing another phenomena (I Dream of Gennie). The first mass to go was the ^(The T.V. program) smallest and the brightest of the three. That left at about 7:40. The two other's, within the period of twenty minutes af-

ter the first one started to, you might say, "fuse" together until about 7:50 and then it started to blend in with the rest of the sky. I saw something like this about one or two years ago, but I didn't know who or where to give my information to.

Well if you have got this far and you are not asleep yet or have gone cross-eyed with my typing, I would like to thank you for your time and patience in reading this letter and trying to cope with my (AHEM!) jokes. You are probably piled down with papers, such as mine, and are filing them all in the proper place, the wastepaper basket. If you have any explanation what this thing was I would sure like to know about it. My address is below. Thanks again

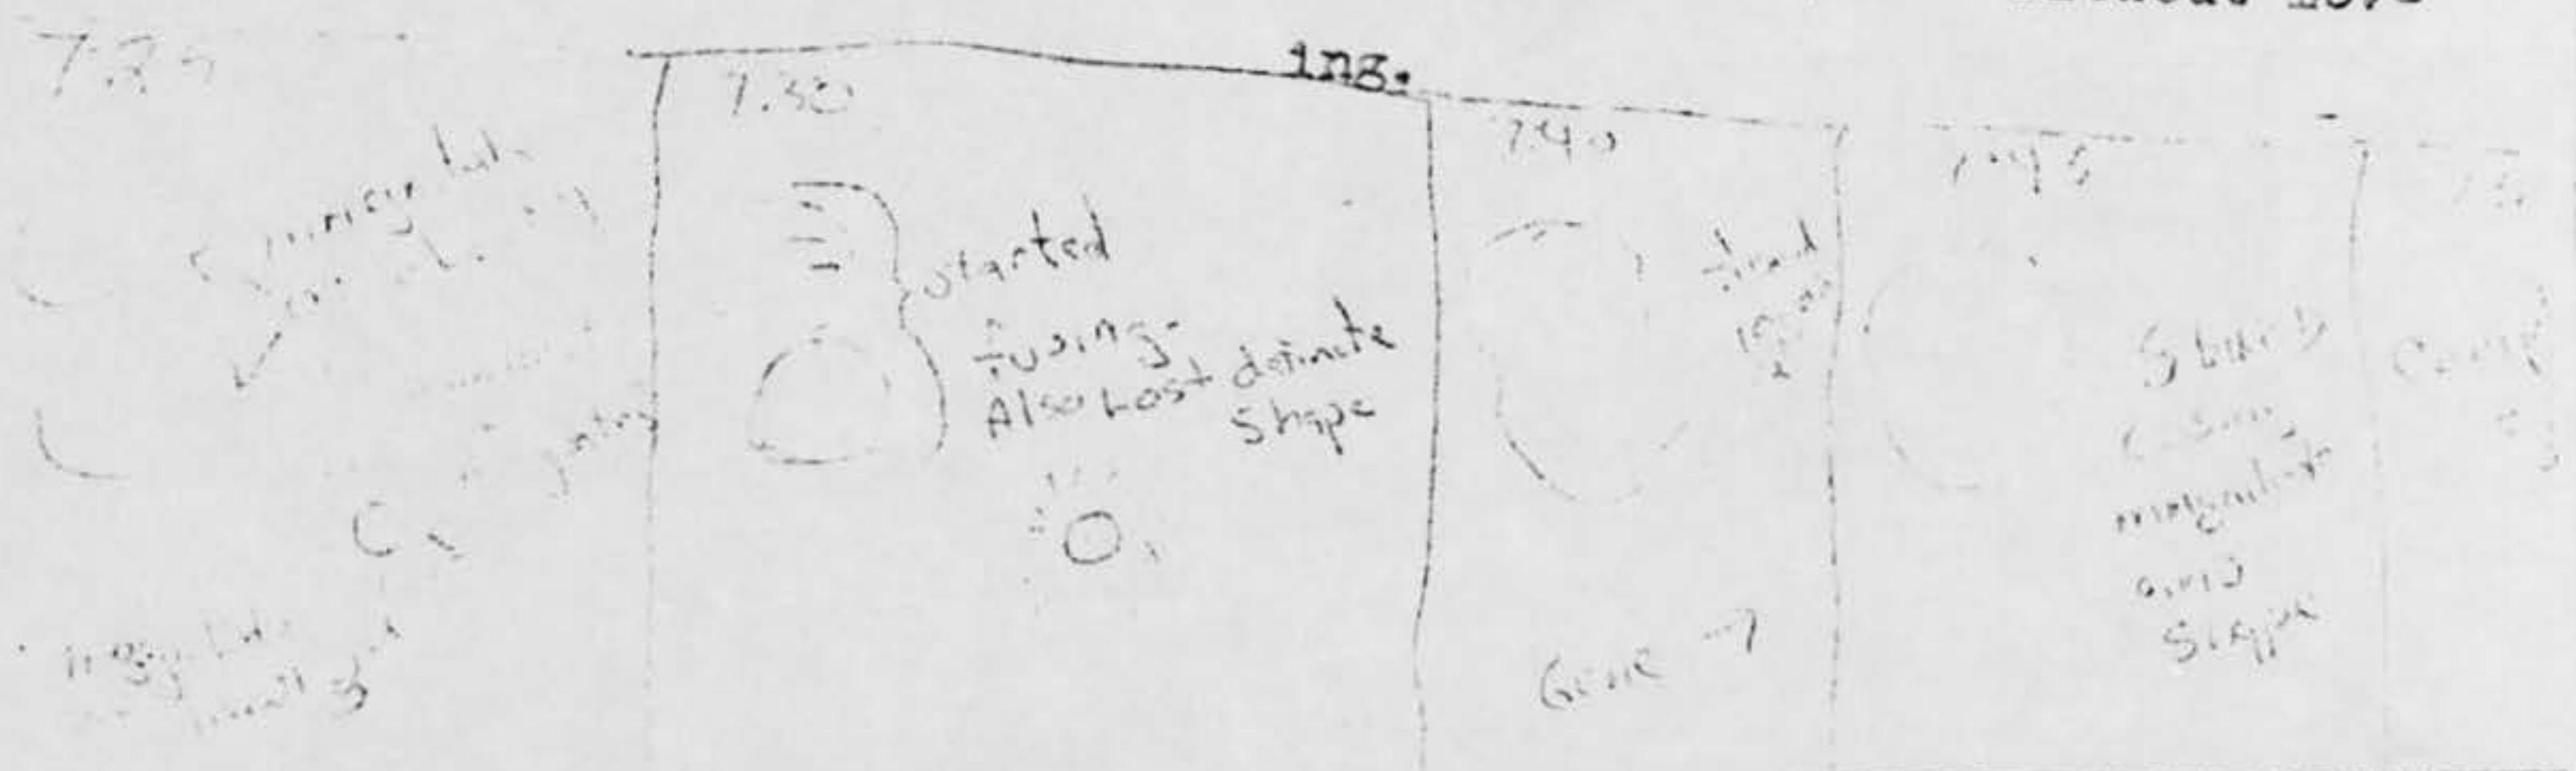

yours truly,

P.S. I know these objects were not clouds because most clouds don't take this type of shape and just don't disappear while standing, or staying in one place without moving.

SUBJECT:

UFO Observation, October 1967

DEC 13 1967

TO:

Mr. & Mrs. [REDACTED]

Ridgewood, N. Y. 11237

Your name has been given to the Aerial Phenomena Branch (Project Blue Book) as being a witness to an unidentified flying object. If you were a witness to an UFO sighting on October, 1967 would you please complete the attached AF Form 117 and return it in the envelope provided. If you were not a witness to this sighting, would you please make a statement to this effect on the attached form. The information which you provide will be used in evaluating this observation. Thank you for your assistance in this matter.

JAMES C. MANATT, Colonel, USAF
Director of Production

1 Atch
AF Form 117

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

Time unknown October 1967
Day Month Year

2. Time of day: 7 15
Hour Minutes

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

Glover Cleveland Park New York New York
Nearest Postal Address City or Town State or County

5. How long was object in sight? (Total Duration)

— 5 —
Hours Minutes Seconds

a. Certain

b. Fairly certain

c. Not very sure

d. Just a guess

5.1 How was time in sight determined?

it usually takes about 3 minutes to walk home but looking at the object we walked slower

5.2 Was object in sight continuously?

Yes No

6. What was the condition of the sky?

DAY

a. Bright
b. Cloudy

NIGHT

a. Bright
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right

d. To your left
e. Overhead
f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- ☒ b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- ☒ c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- ☒ b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- ☒ a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- ☒ b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

12. The edges of the object were:

- (Circle One):
- ☒ a. Fuzzy or blurred
 - b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

- a. Appear to stand still at any time?
- b. Suddenly speed up and rush away at any time?
- c. Break up into parts or explode?
- d. Give off smoke?
- e. Change brightness?
- f. Change shape?
- g. Flash or flicker?
- h. Disappear and reappear?
